RECORDABLE CONFIRMATORY ASSIGNMENT

THIS CONFIRMATORY ASSIGNMENT ("Confirmatory Assignment") is made pursuant to the Intellectual Property Contribution Agreement dated January 1, 2011 (the "Contribution Agreement") between Medical Engineering and Development Institute, Inc. and Cook Medical Technologies LLC ("Assignee").

WHEREAS, prior to the Contribution Agreement, Medical Engineering and Development Institute, Inc. D/B/A MED Institute, Inc. ("Assignor") possessed a registered right, title, and interest in and to the U.S. patent application and all inventions described therein related to "**LOW PROFILE NON-SYMMETRICAL STENT**" and being described in U.S. Provisional Patent Application No. 61/016,753, filed on December 26, 2007, and any and all applications claiming the benefit thereof including the right of priority, and described in U.S. Nonprovisional Patent Application No. 12/622,351 filed on November 19, 2009, (collectively, the "Applications"), under the officially-registered trading name of MED INSTITUTE, INC. as evidenced by the documents in Schedule A attached hereto.

WHEREAS, pursuant to Sections 2.1(c) and 6.2 of the Contribution Agreement, Assignor agreed to execute this Confirmatory Assignment to confirm the assignment of the Applications on January 1, 2011, for the purpose of recording Assignee's rights with any appropriate patent authority in any country throughout the world, including the United States Patent and Trademark Office.

WHEREAS the assignment effected by the Contribution Agreement included the Applications and all divisionals, renewals, continuations, reissues, re-examinations, and extensions thereof, and all foreign equivalents thereof, including all Letters Patent and applications for Letters Patent claiming priority from such U.S. Patents, divisionals, renewals, or continuations in any country (including, without limitation, the right to claim priority from any related application and the right to sue for past, present and future infringements in the United States and in all foreign countries).

WHEREAS, to the extent that the Contribution Agreement did not assign to Assignee all of Assignor's right, title and interest in the Applications, Assignor desires to assign such rights, title and interest to Assignee, and Assignee desires to accept such an assignment.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor hereby confirms its prior contribution, assignment and transfer to the Assignee of all of Assignor's rights, title and interest in the Applications, or otherwise assigns, transfers, and contributes to the Assignee all of Assignor's rights, title and interest in the Applications, including all inventions described therein.

The Assignor also hereby requests the United States Patent and Trademark Office and the relevant patent authority in any other country throughout the world to record this Assignment to the Assignee. The Assignor hereby further authorizes and requests the United States Patent and Trademark Office and any relevant patent authority in any other country throughout the world to issue any and all patent registrations resulting from

RECORDABLE CONFIRMATORY ASSIGNMENT

THIS ASSIGNMENT ("Assignment") is made this 21st day of July, 2011, by Cook Incorporated, an Indiana corporation (referred to as "Assignor").

WHEREAS, Assignor entered into an Intellectual Property Contribution Agreement (the "Contribution Agreement"), dated January 1, 2011 between and among Assignor and Cook Medical Technologies LLC, an Indiana limited liability company having an office at 750 N. Daniels Way, Bloomington, IN 47404, U.S.A. ("Assignee"), pursuant to which Assignor previously assigned to Assignee all of Assignor's right, title, and interest in the U.S. patent application and all inventions described therein related to "LOW PROFILE NON-SYMMETRICAL STENT" and being described in U.S. Provisional Patent Application No. 61/016,753, filed on December 26, 2007, and any and all applications claiming the benefit thereof including the right of priority, and described in U.S. Nonprovisional Application No. 12/622,351, filed on November 19, 2009, (collectively, the "Applications"). (We hereby consent to the patent attorney entering the serial number and filing date when they become known.)

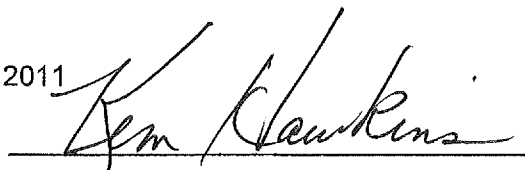

WHEREAS, pursuant to Section 6.2 of the Contribution Agreement, Assignor agreed to execute this Assignment to confirm the assignment on January 1, 2011, for the purpose of recording Assignee's rights with the U.S. Patent and Trademark Office.

WHEREAS, to the extent that any of Assignor's right, title, or interest in the Applications was not transferred pursuant to the Contribution Agreement, Assignor desires to assign to Assignee all of Assignor's right, title, and interest in, to, or under the Applications, including all inventions described therein, and Assignee desires to accept such an assignment.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor hereby assigns, transfers, contributes, and sets over, and does hereby confirm the previous contribution, assignment, and transfer, unto the said Assignee, its successors, legal representatives and assigns, all of Assignor's right, title and interest in, to and under the Applications, including all inventions described therein and all divisions, renewals and continuations thereof, and all Letters Patent of the United States which may be granted thereon and all reissues, re-examinations and extensions thereof (including, without limitation, all proceeds thereof and the rights to sue for past, present and future infringements), and all applications for Letters Patent which may hereafter be filed for said Applications (including the right to claim priority from said Applications, including all inventions described therein) in any country or countries foreign to the United States, and all letters Patent which may be granted for said Applications in any country or countries foreign to the United States hereby authorized.
