ASSIGNMENT

Names of Inventor/Assignor: **Ronnie Allum**
Name of Assignee: **James Cameron & Vincent Pace**
Title of Application: **Stereo Camera with Automatic Control of Interocular Distance**

Application No.: 12/578,488 Date of Filing of Application: 10/13/2009 Issued as Patent No. 7,899,321

In consideration of the sum of \$1.00 and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged by the undersigned Inventor/Assignor:

1. I agree to sell, assign and transfer and do hereby sell, assign and transfer to the above named Assignees, their successors and assigns, each Assignee to take in equal parts, my entire and exclusive right, title and interest in and to the inventions claimed and described in the above-identified patent application in the United States and throughout the world, and in and to any applications for patent and patents which may be granted and issued thereon in any and all countries, and in and to any continuations, divisions, reissues, extensions, and reexaminations of said applications and patents and all priority rights associated therewith. I agree to execute separate assignments in connection with such applications as the Assignees may deem necessary or expedient.
2. Without cost to the undersigned, I agree to perform all affirmative acts which may be necessary to obtain a grant of original, reissue or reexamined patents on the inventions. I agree to execute all papers necessary in connection with any interference which may be declared, or protest or any other administrative or judicial proceeding, concerning this application or continuations or divisions thereof and to cooperate in every way possible in obtaining evidence and going forward with such interference.
3. I agree to execute all papers and documents and to perform any act necessary in connection with provisions of any and all laws and international treaties regarding patents and industrial property.
4. I irrevocably appoint Assignees, and any subsequent assignees if individuals or the corporation's president or limited liability company's managing members of the assignee, as the case may be, to act as my agent and attorney-in-fact to perform all acts necessary to obtain and/or maintain patents to any inventions assigned under this assignment if I refuse to perform those acts, or am unavailable, within the meaning of any applicable laws. 6. I represent that to the best of my knowledge and belief I have the full right to convey the entire interest herein assigned. I represent that to the best of my knowledge and belief no other assignment, sale, agreement or encumbrance has been or will be made or entered into which would conflict with this assignment. This assignment stands on its own.
7. Each Assignee shall have the right to assign this Assignment and the rights hereunder, and each later assignee shall have the rights of the Assignee hereunder.

8. This Assignment will be governed by the internal laws, and not the law of conflicts, of the State of California applicable to agreements to be performed in such state.

9. Facsimile and PDF signatures shall constitute original signatures.

10. The Assignment shall constitute the entire agreement among the parties and supersede all prior oral or written agreements, understandings, representations and warranties and courses of conduct and dealing among the parties on the subject matter hereof. Except as otherwise provided herein, this Assignment may be amended or modified only by a written agreement executed by the parties.

11. All disputes arising out of this Assignment or its subject matter shall be subject to the exclusive jurisdiction and venue of the state and federal courts located in Los Angeles County, California, and I consent to personal and exclusive jurisdiction and venue of these courts.
