ASSIGNMENT

This Assignment made by Paul M. Consigny of San Jose, California, to ABBOTT CARDIOVASCULAR SYSTEMS INC., a California corporation, Assignee, having a place of business at 3200 Lakeside Drive, BO-3041, Santa Clara, California 95054-2807; Telephone: 408-845-3000; Facsimile: 408-845-3987.

WHEREAS, Assignor has invented a new and useful **Vascular Shield and Delivery System** for which Assignor has executed United States Letters Patent application filed on August 9, 2011, serial No. 13/205,921, Assignee Matter No. 10651USO1; Attorney Docket No. 23253-0010; and

WHEREAS, Assignor believes himself or herself to be the original, first and sole inventor of the invention disclosed and claimed in that Patent Application; and

WHEREAS, Assignee desires to acquire by formal, recordable assignment the entire right, title and interest in and to the invention, the application, and Patent that may issue for the invention in the United States and throughout the world;

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor hereby sells, assigns and transfers to Assignee, the entire right, title and interest in and to the invention, the application, and any resulting Patent that may be granted for the invention in the United States and throughout the world, including the right to file foreign applications directly in the name of the Assignee and to claim for any such foreign applications any priority rights those applications are entitled under international conventions, treaties or otherwise.

Further, Assignor agrees that, upon request and without further compensation, but at no expense to Assignor, he and his legal representative(s) and assigns will do all lawful acts, including the execution of papers and the giving of testimony, that Assignee may deem necessary or desirable for obtaining, sustaining, reissuing or enforcing the Patent or patents in the

United States and throughout the world for the invention, and for perfecting, recording or maintaining the title of Assignee, its successors and assigns, to the invention, the application, and any Patents granted for the invention in the United States and throughout the world.

Assignor represents and warrants that he has not granted and will not grant to others any rights inconsistent with the rights granted by this Assignment.

Assignor authorizes and requests the Commissioner of Patents and Trademarks of the United States and of all foreign countries to issue any Patents granted for the invention, whether on the application or on any subsequently filed divisional, continuation, continuation-in-part, or reissue application, to Assignee, its successors and assigns, as the assignee of the entire interest in the invention.

IN WITNESS WHEREOF, Assignor has executed this Assignment on the date written herein below.
