PATENT RIGHTS ASSIGNMENT

This Patent Rights Assignment (this "Assignment") is made effective October 1, 2010, by and between the Technion Research & Development Foundation, Ltd., ("Assignor"), and Teva Pharmaceutical Industries Ltd. ("Assignee").

WHEREAS, Assignor possesses certain rights in and to the Patent Applications and Patents set forth in Schedule A and Supplementary Protection Certificates (SPCs) set forth in Schedule B, each attached hereto and incorporated herein by reference (collectively, the "Assigned Patents"); and

WHEREAS, Assignor now wishes to assign all of its right, title and interest in and to the Assigned Patents to Assignee, and Assignee desires to acquire all of Assignor's right, title and interest in and to the Assigned Patents from Assignor;

NOW, THEREFORE, in consideration of Ten Thousand Dollars (10,000 USD) and for other good and valid consideration (including the costs of recordation of assignment), the receipt and sufficiency of which is hereby acknowledged:

Assignor does hereby assign, convey and transfer unto Assignee and its successors, assigns, and legal representatives, Assignor's entire right, title and interest in and to the Assigned Patents (including any and all patent term extensions, reissues, reexaminations, extensions or supplementations thereof, and every priority right) to the full end of the term for which said rights have been granted as fully and entirely as the same would have been held by Assignor had this assignment not been made; and Assignor hereby conveys all of its rights in and to the Assigned Patents arising under or pursuant to any and all laws relating to the protection of patent rights, including but not limited to any cause(s) of action and damages accruing prior to this Assignment.

Assignor hereby further agrees for itself and its successors, assigns, agents, and legal representatives to execute upon request any other lawful documents and likewise to perform any other lawful acts which may be deemed necessary to secure fully the rights in the Assigned Patents to Assignee, its successors, assigns, and legal representatives, and generally do everything possible to aid Assignee, its successors, assigns and legal representatives to obtain, record, maintain, and enforce full protection for the Assigned Patents in all countries, but in each instance at Assignee's expense.

Assignor hereby warrants that it has not conveyed to anyone other than Assignee any rights in the Assigned Patents or any license to use the same or to make, use or sell anything embodying or utilizing any of the Assigned Patents, and that it has good right to assign the Assigned Patents to Assignee without encumbrance.

Assignor does hereby authorize all proper governmental authorities to record this Assignment of the Assigned Patents to show that all right, title and interest in the Assigned Patents reside with the Assignee, its successors, assigns, or legal representatives in accordance with the terms of this Assignment.
