## Assignment

In consideration of One Dollar (US \$1.00) and the payments made to Assignor pursuant to the Asset Purchase Agreement dated as of August 1, 2011 among Assignor, Assignee, Cantel Medical Corp. and Don Byrne, together with other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the undersigned,

BYRNE MEDICAL, INC., a Texas corporation with a principal location in Conroe, Texas ("Assignor")

Hereby sells, assigns and transfers to MINNTECH CORPORATION, a Minnesota corporation with a principal location in Minneapolis, Minnesota ("Assignee") all of its right, title or interest, including all rights for all countries, in and to any and all inventions that are disclosed and claimed, and any and all inventions that are disclosed but not claimed, in the applications and patents listed in Schedule A, and in and to said patents or applications and all divisional, continuation, continuing, substitute, renewal, reissue and all other applications for patents or other related property rights in any and all countries that have been or shall be filed on any of said inventions disclosed in said patents or applications; and in and to all original and reissued patents or related foreign documents that have been or shall be issued on said inventions;

Authorizes and requests the Director of Patents of the United States to issue to Assignee, its successors, assigns and legal representatives, in accordance with this assignment, any and all United States Letters Patent on said inventions or any of them disclosed in said applications;

Agrees that Assignee may apply for and receive foreign Letters Patent or rights of any other kind for said inventions; or any of them; and may claim, in applications for said foreign Letters Patent or other rights, the priority of the United States patents and applications in Schedule A under the provisions of the International Convention of 1883 and later modifications thereof, under the Patent Cooperation Treaty, under the European Patent Convention or under any other available international agreement; and that, when requested, without charge to, but at the expense of, Assignee, its successors, assigns and legal representatives, to carry out in good faith the intent and purpose of this assignment, the Assignor will, for the United States and all foreign countries, execute all original, divisional, continuation, continuing, substitute, renewal, reissue, and all other patent applications or other documents on any and all said inventions; execute all rightful oaths, assignments, powers of attorney and other papers; communicate to Assignee, its successors, assigns and representatives, all facts known and documents available to the Assignor relating to said inventions and the history thereof; and testify in all legal proceedings regarding said patent; and

Covenants with said Assignee, its successors, assigns and legal representatives that no assignment, grant, mortgage, license or other agreement affecting the rights and property herein conveyed has been made to others by Assignor, and that full right to convey the same as herein expressed is possessed by Assignor.

Assignee does:

Agree to and accept the assignment hereunder.
