## ASSIGNMENT OF PATENT RIGHTS

This ASSIGNMENT OF PATENT RIGHTS ("Assignment of Patent Rights") is made as of the 29<sup>th</sup> day of August, 2008 by and between OSRAM SYLVANIA INC., a Delaware corporation ("Assignor") and FEDERAL-MOGUL IGNITION COMPANY, a Delaware corporation ("Assignee").

### WITNESSETH:

WHEREAS, OSRAM SYLVANIA PRODUCTS INC. ("OSPI"), an affiliate of Assignor, and Assignee have entered into that certain Asset Purchase Agreement dated as of April 30, 2008 (the "Purchase Agreement"), pursuant to which OSPI is obligated to cause Assignor to convey to Assignee the patents listed on Schedule 1 attached hereto (collectively referred to as the "Patents") and the patent applications listed on Schedule 1 attached hereto (collectively referred to as the "Applications").

NOW, THEREFORE, intending to be legally bound, and in consideration of the mutual covenants and agreements set forth herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto agree as follows:

1. Assignment. Pursuant to Section 1.1 of the Purchase Agreement, and subject to Section 2 and Section 3 hereof, for valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor hereby sells, conveys, transfers and assigns to Assignee all of Assignor's right, title and interest in and to the Patents and the Applications, including all divisions, continuations, reissues, and extensions thereof and all rights of priority resulting from the filing of the Patents and Applications. Except as provided in the Purchase Agreement, Assignor makes no representations or warranties, express or implied, with respect to the Patents or the Applications.
2. Terms of Purchase Agreement Control. Nothing contained in this Assignment of Patent Rights shall in any way supersede, modify, replace, amend, rescind, waive, narrow or broaden any provision set forth in the Purchase Agreement or any of the rights, remedies or obligations arising therefrom. This Assignment of Patent Rights shall in all ways be governed by, and subject to, the Purchase Agreement.
3. Patent License Agreement. The Patent License Agreement dated as of April 30, 2008 by and among Assignor, Assignee, and OSPI shall continue in full force and effect until it terminates pursuant to its terms.
4. Further Assurances. Assignee shall promptly record this Assignment of Patent Rights (or such suitable short form assignment or notice as may be applicable) at the United States Patent and Trademark Office and any comparable patent office in any foreign country in which any of the Patents or Applications are filed and/or registered to change the name and address of record for such Patents and/or Applications or to take promptly such other action as may be advisable to ensure that all correspondence regarding the Patents and the Applications will be sent to Assignee. Assignor agrees that on request and without further consideration, but at the expense of the Assignee, Assignor will (a) testify in any legal proceedings; (b) sign all

lawful papers and execute all divisional, continuing, and reissue applications; (c) make all rightful oaths, and (d) generally aid the Assignee, its successors, assigns, and nominees in a manner reasonably necessary, in each case of clause (a) – (d), in order for Assignee to obtain and enforce proper patent protection for said Patents and Applications in all countries. Assignee acknowledges that Assignor shall have no obligation to maintain the Patents and Applications after the date hereof, and Assignor shall have no liability to Assignee in the event of any failure or termination of the Patents or Applications after the date hereof, including without limitation any abandonment of an Application or termination of a Patent for failure to prosecute or pay any applicable fees after the date hereof.

5. Miscellaneous. This Assignment of Patent Rights (a) is executed pursuant to the Purchase Agreement and may be executed in multiple counterparts, each of which as so executed shall be deemed to be an original, but all of which together shall constitute one instrument, (b) shall be governed by and in accordance with the internal laws of the State of Michigan, without regard to the principles of conflicts of law thereof, and (c) shall be binding upon and inure to the benefit of the parties hereto and their respective successors and permitted assigns. Capitalized terms used herein without definition shall have the respective meanings assigned to them in the Purchase Agreement.

[Signature page follows.]

IN WITNESS WHEREOF, each of Assignor and Assignee has caused this Assignment of Patent Rights to be duly executed as of the date first written above.
