ASSIGNMENT

WHEREAS, Fyfe Group, LLC, Assignor, owns the entire right, title and interest in and to the inventions in the attached Exhibit A; and

WHEREAS, Fyfe Beta, Inc. having a place of business at 8380 Miralani Drive, Suite A, San Diego, CA 92126, Assignee, desires to acquire by formal, recordable assignment the entire right, title and interest in and to the inventions, the application and any Letters Patent that might be granted for the inventions in the United States and throughout the world.

NOW THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor hereby sells, assigns and transfers to Assignee the entire right, title and interest in and to the inventions, the application, and any Letters Patent that might be granted for the inventions in the United States and throughout the world, including the right to file foreign applications directly in the name of Assignee and to claim for any such foreign applications any priority rights to which such applications are entitled under international conventions, treaties or otherwise.

Further Assignor agrees that, upon request and without further compensation, but at no expense to Assignor, it and its legal representatives and assigns will perform all lawful acts, including the execution of papers and the giving of testimony, that might be necessary or desirable for obtaining, sustaining, reissuing or enforcing Letters Patent in the United States and throughout the world for the inventions, and for perfecting, recording or maintaining the title of Assignee, its successors and assigns, to the inventions, the application, and any Letters Patent granted for the inventions in the United States and throughout the world.

Assignor represents and warrants that it has not granted and will not grant to others any rights inconsistent with the rights granted by this Assignment.

Assignors authorize and request the Commissioner of Patents and Trademarks of the United States and of all foreign countries to issue any Letters Patent granted for the inventions, whether on the applications or on any subsequently filed division, continuation, continuation-in-part or reissue

applications, to Assignee, its successors and assigns, as the assignee of the entire interest in the inventions.

Date: December 30, 2010
