INTELLECTUAL PROPERTY ASSIGNMENT

THIS INTELLECTUAL PROPERTY ASSIGNMENT (this "Assignment") is made on this 2nd day of September 2010 (the "Effective Date"), by and between BP CORPORATION NORTH AMERICA INC., a corporation organized and existing under the laws of the state of Indiana, having an official place of business at 4101 Winfield Road, Warrenville, Illinois 60555 ("BP"), and VERENIUM CORPORATION, a Delaware corporation, having a place of business at 4955 Directors Place, San Diego, CA 92121 ("Verenium").

WITNESSETH:

Pursuant to the terms of the ASSET PURCHASE AGREEMENT dated as of July 14, 2010, by and between BP BIOFUELS NORTH AMERICA LLC, a Delaware limited liability company ("BP BIOFUELS"), a subsidiary of BP CORPORATION NORTH AMERICA INC., and VERENIUM CORPORATION, this Assignment is being entered into to induce BP BIOFUELS to consummate the transactions contemplated by the ASSET PURCHASE AGREEMENT dated July 14, 2010, between BP Biofuels North America LLC and Verenium Corporation, in consideration for the mutual promises it contains, and in consideration of the sum of One Dollar (\$1.00) and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, BP and Verenium each further agree as follows:

For the purposes of this Agreement, the following terms have the following meanings:

1.1 "Patent Rights" means all issued patents and pending unpublished and published patent applications (including certificates of invention, applications for certificates of invention and priority rights) in any country or region, including all plant patents and design patents, provisional applications, substitutions, continuations, continuations-in-part, continued prosecution applications including requests for continued examination, divisional applications and renewals, and all letters patent or certificates of invention granted thereon, and all reissues, reexaminations, extensions, term restorations, renewals, substitutions, confirmations, registrations, revalidations, revisions and additions of or to any of the foregoing, and all counterparts of any of the foregoing, as well as the rights to file for, and to claim priority to, such patent rights.

1.2 "Retained Rights" means the Verenium Patent Rights (or any claims thereof) or Verenium Know How to the extent (but only to the extent) that such Verenium Patent Rights (or any claims thereof) or Verenium Know-How (a) cover the right to make, have made and use Biomolecules included in the Collaboration Materials expressed or produced through Transgenic Expression (as those capitalized terms are defined in the Separation Agreement) and to use data and information included in the Collaboration Materials, in each case to develop, have developed, use, have used, make, have made, import, have imported, export, have exported, sell, offer for sale and have sold products which consist of, incorporate or are made through the use of any

Biomolecules included in the Collaboration Materials expressed or produced through Transgenic Expression, and (b) as otherwise exclusively licensed to Syngenta in the Syngenta Field of Use under the Separation Agreement entered into October 28, 2009 by and between Syngenta and Verenum.

1.3 "Verenum Patent Rights" means (a) the Patent Rights which are expressly listed and identified on Schedule A hereto, and (b) Patent Rights arising from prosecution or maintenance of such Patent Rights expressly listed and identified on Schedule A.

2. Assignment. Verenum its predecessors and assigns has sold, assigned, transferred and conveyed and does hereby sell, assign, transfer and convey unto BP its successors and assigns, subject to and expressly excluding the Retained Rights, an equal undivided joint ownership interest in all of the rights, titles and interests in, to and benefits (a) in and to the patents, patent applications and the inventions described or set forth on Schedule A; (b) in and to all rights to apply for patents in the United States of America or any country foreign thereto on the inventions described or set forth on Schedule A; (c) in and to all applications filed and all patents granted on the inventions in the United States of America or any country foreign thereto, described or set forth on Schedule A including every application and every patent granted on any application which is a divisional, substitution, or continuation of the applications, and every reissue or extensions of any patents described or set forth on Schedule A. Verenum does hereby authorize and request the Commissioner of Patents and Trademarks in the United States of America and countries foreign thereto, to assign an equal undivided joint ownership interest in and to all applicable patent rights included herein to BP and Verenum as joint owners, subject to and expressly excluding the Retained Rights.

3. Further Action. Verenum hereby covenants and agrees to cooperate with BP to enable BP to enjoy to the fullest extent the right, title and interest herein conveyed in the United States of America and any country foreign thereto, and from time to time after the Effective Date, at BP's request and expense, shall:

a. execute, acknowledge and deliver to BP such other instruments of conveyance and transfer and will take such other actions and execute and deliver such other documents, certifications and further assurances, as BP may reasonably require in the United States of America or a country foreign thereto in order to assign, transfer and convey to BP the items and materials set forth in Section 2 above;

b. render all reasonably requested assistance to BP to establish or protect BP's rights in and to the items and materials referenced in Section 2 above under the intellectual property laws of the United States of America or countries foreign thereto, including, without limitation, (i) causing Verenum's agents, employees and representatives, and (ii) using commercially reasonable efforts to cause Verenum's third party contractors (such agents, employees, representatives and contractors, collectively, "Verenum Parties") to execute appropriate instruments to secure, register, verify, validate, effect, maintain, renew or defend BP's rights in and to the items and materials referenced in Sections 2 above;

c. cooperation by Verenium's or Verenium Parties' shall include prompt production of pertinent facts and documents, giving of testimony, execution of petitions, oaths, specifications, declarations or other papers and other assistance, all to the extent deemed necessary by BP for (a) perfecting the right, title and interest herein conveyed, (b) prosecuting any of the applications, (c) filing and prosecuting, substitute, divisional, continuing or additional applications covering the inventions; (d) for interference or other priority proceedings involving the invention, and (e) legal proceedings involving the inventions and any applications thereof and any patents granted thereon, including without limitation, opposition proceedings, cancellation proceedings, priority contests, public use proceedings, infringement actions and court actions, provided, however, that the expense incurred by Verenium's or Verenium Parties' in providing such cooperation shall be paid for by BP;

d. not contest, deny or take any action inconsistent with BP's rights to the items and materials set forth in Section 2 above.

In the event that BP is unable to secure Verenium's or Verenium Parties' signature on any documents deemed necessary by BP, in its reasonable discretion, to carry out the purposes of this Assignment, if (i) after BP has provided Verenium with written notice of such request, (ii) at least twenty (20) business days have lapsed since BP has provided the written notice, and (iii) Verenium has not, during such twenty (20) business day period, provided Verenium's or the Verenium Parties' signature on such documents, then on the twenty first (21st) business day after BP has provided Verenium with such written notice, Verenium hereby irrevocably designates and appoints BP or its designee(s) as Verenium's agent and attorney-in-fact, which appointment is coupled with an interest, to act for and in Verenium's behalf for the sole purpose of executing, verifying and filing any such document(s).

4. Successors and Assigns. Verenium hereby warrants and represents that they have not entered and will not enter into any assignment, contract or understanding in conflict herewith. The terms and covenants of this Assignment shall inure to the benefit of and be binding upon the successors and assigns of BP and Verenium.

5. Governing Law. This Assignment shall be governed by and construed in accordance with the laws of the State of New York, USA, without giving effect to any of the conflict of law rules thereof to the extent such rules would require or permit the application of the laws of another jurisdiction to this Assignment.

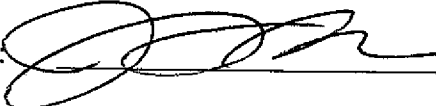

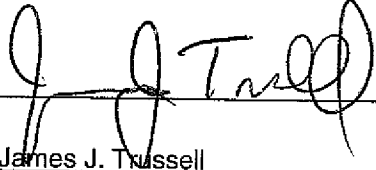

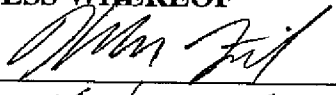

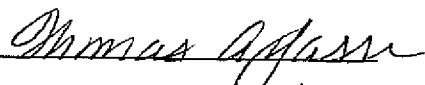

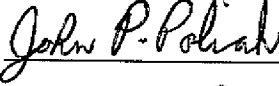

6. Counterparts. This Assignment may be executed in any number of counterparts, each of which shall be deemed an original and all of which together shall constitute one and the same instrument.

7. Amendment and Waiver. This Assignment may not be amended or modified in any manner other than by an agreement in writing signed by the parties hereto or their respective successors or permitted assigns. No waiver under this Assignment shall be

valid or binding unless set forth in a writing duly executed and delivered by the party against whom enforcement of such waiver is sought. Neither the waiver by any of the parties of a breach or default under any of the provisions of this Assignment, nor the failure by any of the parties, on one or more occasions, to enforce any of the provisions of this Assignment or to exercise any right or privilege hereunder, shall be construed as a waiver of any other breach or default of a similar nature, or as a waiver of any of such provisions, rights or privileges hereunder.

[Signature Page Follows]

IN TESTIMONY WHEREOF, each party has executed this Assignment by its proper officers thereunto duly authorized.

VERENIUM CORPORATION

On this 1st day of September, 2010, before me B. Siddons, Notary Public personally appeared the Jeffrey G. Black, who proved to me on the basis of satisfactory evidence to be the person who executed the foregoing instrument and who acknowledged to me that he executed the same of his own free will for the purposes therein set forth.

I Certify under PENALTY OF PERJURY under the laws of the State of California that the foregoing paragraph is true and correct.

WITNESS my hand and Official Seal.

B. Siddons

Notary Public,

San Diego County, State of California
My Commission Expires: March 16, 2011

(seal)

BP CORPORATION NORTH AMERICA INC.

On this 2nd day of September, 2010 before me personally appeared the foregoing individual, who executed the foregoing instrument and who acknowledged to me that he/she executed the same of his/her own free will for the purposes therein set forth.

Carol A Wilson

Notary Public,

DuPage County, State of IL
My Commission Expires: 5-20-14
