ASSIGNMENT

THIS ASSIGNMENT is by John H. Musser, (the "Assignor"), residing at San Carlos, California. I, Assignor, have invented certain inventions (the "Invention(s)") described in a United States Patent Application entitled **TRIPTOLIDE C-RING DERIVATIVES AS ANTICANCER AGENTS AND IMMUNE MODULATORS**, (the "Application") bearing Application No. 13/147,587, with an international filing date of February 4, 2010.

Pharmagenesis, Inc., having a place of business at 303 Twin Dolphin Drive, Suite 600, Redwood City, California 94065, ("Assignee"), desires to acquire the entire right, title and interest in and to the Inventions and the Application, and in and to any patents (collectively, "Patents") that may be granted for the Inventions in the United States or in any foreign countries.

For valuable consideration, the receipt and sufficiency of which I acknowledge, Assignor hereby sells, assigns, and transfers to Assignee, its successors, legal representatives and assigns, the entire right, title and interest in and to: the Inventions, the Application, and any Patents; any divisions, continuations, and continuations-in-part of the Application and any other application claiming priority rights from the Application; any reissues, reexaminations, or extensions of any and all Patents; the right to file foreign applications directly in the name of Assignee; and the right to claim priority rights deriving from the Application (collectively, the "Rights"). Assignor warrants that he is the owner of the Rights, and that the Rights are unencumbered. Assignor also agrees to not sign any writing or do any act conflicting with this assignment, and, without further compensation, to sign all documents and do such additional acts as Assignee deems necessary or desirable to: perfect Assignee's enjoyment of the Rights; prepare and prosecute the Application or any other applications for Patents; conduct proceedings regarding the Rights, including any litigation or interference proceedings; or perfect or defend title to the Rights. Assignor requests the Commissioner of Patents to issue any Patent of the United States that may be issued on the Inventions to Assignee.

Date: Sept 2, 2011

John H. Musser

Note: May be witnessed in lieu of notarizing.
