ASSIGNMENT

For valuable consideration, Terra Shield, LLC, an Indiana limited liability company having a place of business at 5025 New Haven Avenue, Fort Wayne, Indiana, hereby sells, assigns and transfers unto Terra Technologies LLC, a limited liability company of the State of Illinois having a principal place of business at 1705 S. Route 31, McHenry, Illinois 60050, the whole right, title and interest in and to the patent and patent applications set forth on Exhibit A attached hereto together with all improvements thereon, and betterments thereof and in and to any letters patent therefor, when issued, all divisionals, continuations, continuations-in-part, reexaminations, and reissues thereof and substitutions of or for said application, and all rights and privileges under the Letters Patent that may be granted therefor and any and all foreign patent applications therefor, and all rights and privileges under the Letters Patents that may be granted therefor, including the right to claim the benefit of an earlier filing date for the same inventions in a foreign country.

I, the undersigned, being a duly authorized representative of Terra Shield, LLC, hereby authorize and request the Commissioner of Patents of the United States and the patent offices of the relevant foreign countries to issue all Letters Patents that may be granted on said applications to Terra Technologies LLC.

For the same consideration, Terra Shield, LLC, hereby agrees that it will reasonably cooperate at any time upon request of said assignee or its assigns, at its or their expense, in the procurement of patent protection to cover the invention or inventions herein assigned, including the execution of new, divisional, continuation, continuation-in-part, reexamination and reissue applications; will make all rightful oaths; will testify in any proceedings and generally will do everything reasonably necessary to aid said assignee, its successors, assigns and nominees to obtain, enjoy and enforce proper patent protection for the inventions embraced within the terms of this document.

This Assignment is subject to the contingent obligation of Terra Technologies LLC to assign the patent and patent applications back to Terra Shield pursuant to a certain Terra Shield Sale and License Agreement effective July 14, 2011.
