Invention Assignment

For good and sufficient consideration, the receipt of which is hereby acknowledged, I, the undersigned Daniel Perlman and Kenneth C. Hayes ("Assignors") hereby assign to Brandeis University ("Assignee") their entire right, title, and interest in and to the invention or inventions described in the application for United States patent entitled BALANCED SN-2 MYRISTATE-CONTAINING EDIBLE OIL, which application was filed on August 25, 2008 and given serial number 12/197,542, including any and all United States letters patent which may be granted therefor, and any and all extensions, divisions, reissues, substitutes, renewals, continuations, and continuations-in-part thereof; all applications for patents, utility models, or design rights filed in any countries foreign to the United States of America and any patents, utility models, or design rights obtained therefrom; and the right to claim the benefit of the filing date of the above-identified application.

It is agreed that Assignors will, when requested by Assignee, execute without charge all documents reasonably calculated to be useful in perfecting the above rights. Further it is agreed that Assignors will, with costs paid by Assignee, provide information and otherwise assist Assignee to obtain, protect or enforce its rights in and to the subject invention, whether in proceedings before the United States Patent and Trademark Office or another patent office, in litigation, or in other proceedings.

Signed at Brandeis University, this 9th day of January, 2009
