ASSIGNMENT

FOR GOOD AND VALUABLE CONSIDERATION, the receipt, sufficiency and adequacy of which are hereby acknowledged, the undersigned, does hereby:

SELL, ASSIGN AND TRANSFER to AQUILEX HYDROCHEM, INC. (the "Assignee"), a corporation of Delaware having a place of business at 900 Georgia Avenue, Deer Park, Texas 77536, the entire right, title and interest for the United States and all foreign countries, in and to any and all improvements and inventions which are disclosed in the application for United States Letters Patent entitled BLADDER SYSTEM WITH CARBON SCRUBBER FOR STORAGE TANK, U.S. Application Serial No. 61/370748, filed August 4, 2010, such application and all provisional, non-provisional, divisional, continuing, substitute, renewal, reissue and all other applications for patent which have been or shall be filed in the United States and all foreign countries on any of such improvements and inventions; all original and reissued patents which have been or shall be issued in the United States and all foreign countries on such improvements and inventions; and specifically including the right to file foreign applications under the provisions of any convention or treaty and claim priority based on such application in the United States;

AUTHORIZE AND REQUEST the issuing authority to issue any and all United States and foreign patents granted on such improvements to the Assignee;

WARRANT AND COVENANT that no assignment, grant, mortgage, license or other agreement affecting the rights and property herein conveyed has been or will be made to others by the undersigned, and that the full right to convey the same as herein expressed is possessed by the undersigned;

COVENANT that, when requested and at the expense of the Assignee, to carry out in good faith the intent and purpose of this assignment, the undersigned will execute all provisional, non-provisional, divisional, continuing, substitute, renewal, reissue, and all other patent applications on any and all such improvements; execute all rightful oaths, declarations, assignments, powers of attorney and other papers; communicate to the Assignee all facts known to the undersigned relating to such improvements and the history thereof; and generally do everything possible which the Assignee shall consider desirable for securing, maintaining and enforcing proper patent protection for such improvements and for vesting title to such improvements in the Assignee;

AUTHORIZE and request that counsel for the Assignee insert the serial number for the above-identified provisional patent application after it is received from the U.S. Patent and Trademark Office;

TO BE BINDING on the heirs, assigns, representatives and successors of the undersigned and extend to the successors, assigns and nominees of the Assignee.
