## ASSIGNMENT OF UNITED STATES PATENT NO. 6,676,333

WHEREAS, ENGINEERED CONSTRUCTION SYSTEMS, INC., a Missouri Corporation, pursuant to its 2011 annual registration report to the state of Missouri Secretary of State's Office having a principal physical place of business at 306 McDonough, St. Charles, MO 63301 (formerly having a principal physical place of business at 1154 Reco, St. Louis, MO 63126), and currently having **Mr. James ("Jim") S. Reid** as its corporate President and Secretary and serving on its Board of Directors, and said Mr. James ("Jim") S. Reid having authority to bind, commit and obligate ENGINEERED CONSTRUCTION SYSTEMS, INC., and ENGINEERED CONSTRUCTION SYSTEMS, INC., owning United States Patent No. 6,676,333.

WHEREAS, **Dru Bower-Moore, Dwight Mayland, and Richard Mead** are citizens of the United States of America and currently residing in the state of Wyoming.

WHEREAS, ENGINEERED CONSTRUCTION SYSTEMS, INC., (hereinafter referred to as "Assignor") desires to sell, assign and transfer its entire right, title, and interest in United States Patent No. 6,676,333. Assignor represents that to its knowledge there is no current license or lien against United States Patent No. 6,676,333 and that it holds free and clear title to United States Patent No. 6,676,333.

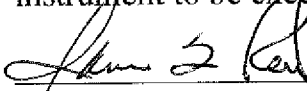

WHEREAS, Dru Bower-Moore, Dwight Mayland, and Richard Mead (hereinafter collectively referred to as "Assignees") desire to purchase, acquire and receive the entire right, title, and interest in United States Patent No. 6,676,333.

NOW, THEREFORE, for the sum of \$20,000 and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor, by these presents, does hereby sell, assign, and transfer unto Assignees all of its right, title, and interest in United States Patent No. 6,676,333 to be acquired, received, and held by Assignees for their own uses and benefits for the full term of United States Patent No. 6,676,333, together with all claims for damages by reason of past or current infringement of said United States Patent No.

6,676,333, with the right to sue for and collect damages of past or current infringement of said United States Patent No.6,676,333. Assignor warrants and guarantees that Assignor has not previously assigned, transferred or licensed any interest in the Patent to any person or entity. Assignor further personally warrants and guarantees to the assignees to defend and indemnify the title of said United States Patent No. 6,676,333 in an amount of \$30,000 to defend and indemnify the title of said United States Patent No. 6,676,333 in the event that title to said United States Patent No. 6,676,333 is ever contested.

Assignor does hereby further covenant and agree with assignees to execute and deliver such other and further instruments and take such other and further actions as may be reasonably necessary or appropriate to transfer said United States Patent No. 6,676,333, claims for damages by reason of past infringement, and right to sue and collect therefore to Assignees.

IN WITNESS WHEREFORE, the undersigned assign or has caused this instrument to be executed effective this 14<sup>th</sup> of NOVEMBER, 2011.
