PATENT ASSIGNMENT AGREEMENT

THIS PATENT ASSIGNMENT AGREEMENT (this "Agreement") is entered into this 4th day of September, 2007, ("Effective Date") by and among AGRIGENETICS, INC., a Delaware corporation (the "Purchaser"), EXELIXIS PLANT SCIENCES, INC., a Delaware corporation ("EPS"), and AGRINOMICS LLC, a Delaware limited liability company ("Agrinomics"). EPS and Agrinomics are collectively referred to herein as the "Seller". The Purchaser, EPS and Agrinomics are individually referred to herein as a "Party" or collectively as the "Parties".

RECITALS

WHEREAS, the Purchaser, the Seller, Mycogen Corporation, and Exelixis, Inc. are party to that certain Asset Purchase and License Agreement of even date herewith (the "Purchase Agreement"; capitalized terms used but not defined in this Agreement shall have the meanings given to them in the Purchase Agreement); and

WHEREAS, the Seller desires to transfer and assign to the Purchaser the Purchased Patents.

NOW, THEREFORE, in consideration of the covenants, conditions, and undertakings hereinafter set forth, it is agreed by and among the Parties as follows:

For the good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged by the Seller, the Seller does hereby sell, assign, transfer and convey to the Purchaser all of the Seller's right, title and interest in, to and under: (a) the patents and patent applications set forth on Schedule A, in and to the inventions claimed or claimable therein, in the United States and its territories and in foreign countries, as well as any reissue, renewal, division, continuation or continuation-in-part or any foreign counterpart thereof or any other application that claims priority to the patents and patent applications set forth in Schedule A, together with all past, present, or future claims arising out of any infringement thereof, and all rights to claim priority on the basis of such patent applications and/or patents in the United States or in any foreign country; and (b) the patents and patent applications set forth on Schedule B, in and to the inventions claimed or claimable therein as well as any reissue, renewal, division, continuation or continuation-in-part or any other application that claims priority to the patents and patent applications set forth in Schedule B, in each case solely in the applicable country set forth in Schedule B and in no other countries, together with all past, present, or future claims arising out of any infringement thereof, and all rights to claim priority on the basis of such patent applications and/or patents solely in the applicable countries set forth on Schedule B and in no other countries, all such rights under (a) and (b) above to be held and enjoyed by the Purchaser, for its own use and benefit and for the use and benefit of its successors, assigns or other legal representatives as fully and entirely as the same would have been held and enjoyed by the Seller if this Agreement and sale had not been made.

- 2. The Seller hereby binds itself, its successors, assigns or other legal representatives, properly to execute without further consideration, any and all applications, petitions, oaths and assignments or other papers and instruments that may be necessary in order to carry into full force and effect the sale, assignment, transfer and conveyance hereby made or intended to be made.
- 3. Nothing contained in this Agreement is intended to limit any of the rights or remedies available to the Seller or the Purchaser under the Purchase Agreement. In the event of any conflict between this Agreement and the Purchase Agreement, the Purchase Agreement shall control.

IN WITNESS WHEREOF, each party has executed this Agreement by its proper officers thereunto duly authorized.
