ASSIGNMENT

WHEREAS,

THIEN DUYEN THI NGUYEN of Castro Valley, CA

invented new and useful improvements in

"FLOW DISTRIBUTION FOR MONOLITHIC REACTORS"

set forth in an application for Letters Patent of the United States bearing Serial No. 13/308,674
and filed on December 1, 2011, (the hereinafter named assignee being authorized to insert said Serial
Number and filing date when ascertained); and

WHEREAS, ENERGIA TECHNOLOGIES, a corporation organized and existing under and by virtue of the laws of the State of California, and having a regular and established place of business at San Leandro, State of California, acquired THIEN DUYEN THI NGUYEN's right, title and interest in and to said invention, said application, and in and to the Letters Patent, Utility Models, and Inventors' Certificates to be granted and issued thereof in the United States of America and in any and all countries foreign thereto, by virtue of an Assignment previously executed by THIEN DUYEN THI NGUYEN on November 15, 2011:

WHEREAS, CHEVRON U.S.A., INC., a corporation organized and existing under and by virtue of the laws of the Commonwealth of Pennsylvania, and having a regular and established place of business at San Ramon, State of California, is desirous of acquiring ENERGIA TECHNOLOGIES' entire right, title and interest in and to said invention, said application, and in and to the Letters Patent, Utility Models, and Inventors' Certificates to be granted and issued thereof in the United States of America and in any and all countries foreign thereto:

NOW, THEREFORE, for a valuable consideration, the receipt of which is hereby acknowledged, ENERGIA TECHNOLOGIES, hereby sells, assigns, transfers and sets over unto said CHEVRON U.S.A., INC., its successors and assigns, its entire right, title and interest in and to said invention, said application, including all priority rights associated with said application under provisions of international conventions, treaties, or otherwise, and all divisions, continuations, reexaminations, and reissues thereof, and in and to all Letters Patent, Utility Models, and Inventors' Certificates to be granted and issued therefore and all reexamination certificates, reissues and extensions thereof, not only for, to and in the United States of America, but for, to and in all other countries. The aforesaid assignment includes the right in and to all income, royalties, damages and payments now or hereafter due or payable with respect to any Letters Patent, Utility Models, and Inventors' Certificates which may be granted in the United States of America and in any and all countries foreign thereto, and in and to all causes of action (either in law or in equity), and the right to sue, counterclaim, and recover for past, present and future infringement of the rights assigned or to be assigned under this Assignment, as fully and entirely as the same would have been held and enjoyed by Assignors if this sale and assignment had not been made;

and ENERGIA TECHNOLOGIES hereby authorizes and requests the Commissioner for Patents to issue said Letters Patent in accordance with this Assignment;

and ENERGIA TECHNOLOGIES hereby covenants that it has full right to convey the entire interest herein assigned, and it has not executed, and will not execute, any agreement in conflict herewith and that the rights assigned herein are not otherwise encumbered by any grant, license or right;

and ENERGIA TECHNOLOGIES hereby further covenants and agrees that it will communicate to said Assignee, its successors, legal representatives and assigns, any facts known to it respecting said inventions and discoveries; and furthermore, upon request, without additional compensation but at no expense to it, its employees, agents and representatives will testify in any interference or legal proceedings involving said inventions, and sign any applications for reissue, division, continuation, continuation-in-part, renewal, substitute or extension thereof.
