ASSIGNMENT OF PATENT APPLICATION

WHEREAS, Guillermo J. Tearney of 12 Fairmont Street, Cambridge, Massachusetts, 02139, hereinafter referred to as "Assignor," is an inventor, along with Xiquan Cui and Changhui Yang, of the invention described and set forth in the below-identified application for United States Letters Patent:

Title of Invention: Quantitative Differential Interference Contrast (DIC) Microscopy and Photography Based on Wavefront Sensors

Filing Date: September 11, 2011

Application No.: 13/229,741; and

WHEREAS, The General Hospital Corporation, a non-profit organization organized and existing under and by virtue of the laws of the State of Massachusetts, and having an office and place of business at 55 Fruit Street, Boston, MA 02114, hereinafter referred to as "ASSIGNEE," is desirous of acquiring an interest in and to the invention and application and in any U.S. Letters Patent and Registrations which may be granted on the same;

For good and valuable consideration, receipt of which is hereby acknowledged by Assignor, Assignor has assigned, and by these presents do assign to Assignee all right, title and interest in and to the invention and application and to all foreign counterparts (including patent, utility model, and industrial designs), and in and to any Letter Patent and Registrations which may be granted on the same in the United States and all countries throughout the world, and to claim the priority from the application as provided by the Paris Convention. The right, title and interest is to be held and enjoyed by Assignee and Assignee's successors and assigns as fully and exclusively as it would have been held and enjoyed by Assignor had this Assignment not been made, for the full term of any Letters Patent and Registrations which may be granted thereon, or any division, renewal, continuation in whole or in part, substitution, conversion, reissue, prolongation or extension thereof.

Assignor further agrees that he will, without charge to Assignee, but as Assignee's expense, (a) cooperate with Assignee in the prosecution of U.S. Patent applications and foreign counterparts on the invention and any improvements, (b) execute, verify, acknowledge and deliver all such further papers, including patent applications and instruments of transfer, and (c) perform such other acts as Assignee lawfully may request to obtain or maintain Letters Patent and Registrations for the invention and improvements in any and all countries, and to vest title thereto in Assignee, or Assignee's successors and assigns.

IN TESTIMONY WHEREOF, Assignor has signed his name on the date indicated.
