ASSIGNMENT

The below named inventor(s) own(s) the entire right title and interest to the invention ("the invention") that is the subject matter of the below United States non-provisional patent application ("Non-provisional Application") entitled:

METHOD AND SYSTEM CONTROLLING AN ELECTRICAL MOTOR WITH TEMPERATURE COMPENSATION

Serial No.: 13/169,407

Filing Date: 27 June 2011

which claims priority based on and the benefit of the filing date of U.S. provisional application number 61/445,650 filed on 23 February 2011 under 35 U.S.C. 119(e) ("Provisional Application").

Pursuant to an agreement between each inventor and Deere & Company, a Delaware corporation having its principal office at Moline, Illinois, as well as other good and valuable considerations paid to each inventor, each inventor agrees to assign, and hereby does assign to Deere & Company the entire right, title and interest which said inventor has or may have to the Invention, the Non-provisional Application and the Provisional Application.

The assigned rights include all rights to file U.S. and foreign patent applications for the Invention described in the Provisional Application, the Non-provisional Application, or both in the name of each inventor or Deere & Company, as well as any right of priority to any letters patent of the United States or any other country that may be granted for the Invention, and any continuations, divisions, continuation-in-part, reissues, reexaminations, or extensions of any of the foregoing applications or patents, or any patents or applications that claim priority based on any of the foregoing patents or applications. These assigned rights are to be held and enjoyed by Deere & Company, its successors or assigns, as fully and entirely as the same would have been held and enjoyed by each inventor had this assignment not been made.

Each inventor agrees to execute all papers which Deere & Company, its successors or assigns deem expedient in connection with the Non-provisional application, the Provisional Application, and any continuing, divisional, reissue, reexamination or foreign applications concerning the invention, and to cooperate with Deere & Company, its successors or assigns in every proper way possible to obtain patent(s) based on the Non-provisional Application, the Provisional Application and any continuing, divisional, reissue, reexamination or foreign applications concerning the Invention.

Each inventor hereby authorizes and requests the Commissioner of Patents and Trademarks to issue any letters patent based on the assigned rights to Deere & Company.

In witness whereof, each inventor has signed below:
