PATENT ASSIGNMENT

WHEREAS, Joshua Z. Tabin, an individual (the “**Assignor**”), has invented certain new and useful systems, methods and/or apparatuses identified in **Schedule A** to this Patent Assignment, for which Assignor has made applications for and/or has received Letters Patent in the United States and other countries;

WHEREAS, PrismaStar, LLC, a Delaware limited liability company, (the “**Assignee**”), is desirous of acquiring the full and exclusive right, title, and interest in, to, and under the inventions, the applications, and any and all Letters Patent that may be granted for or upon the inventions identified in **Schedule A** in the United States of America and all countries foreign thereto (collectively, the “**Inventions**”).

NOW THEREFORE, to all whom it may concern, be it known that for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor has sold, assigned, and transferred, and by these presents does sell, assign, and transfer to Assignee the full and exclusive right, title, and interest, throughout the world, in, to, and under the following:

- (a) the Inventions as set forth and described in the specifications of any U.S. patent applications, international (PCT) applications, foreign applications, and issued patents identified in **Schedule A** prepared, executed, to be executed, or not executed by Assignor therefor, preparatory to obtaining one or more Patents of the United States and/or countries foreign thereto, whether prepared, executed, and/or filed as a provisional application, non-provisional application, international application, and/or foreign application;
- (b) the U.S. patent application(s), international (PCT) applications, foreign applications, and issued patents therefore, including the U.S. patent applications, international (PCT) applications, foreign applications, and issued patents identified in **Schedule A**;
- (c) any and all provisionals and non-provisionals, refilings, divisions, continuations, and continuations-in-part of the U.S. patent application(s);
- (d) any and all Patents of the United States of America that may issue from the U.S. patent application(s), refilings, divisions, continuations, and continuations-in-part, including the previously issued patents identified in **Schedule A**;
- (e) any and all reissues, reexaminations, and extensions of the Patents of the United States of America, including the previously issued patents identified in **Schedule A** and any and all patents that may arise from the U.S. patent applications;
- (f) any and all foreign applications for Patent for or upon the Inventions that may be filed in any and all countries foreign to the United States of America, including national phase applications claiming priority to the international (PCT) applications identified in **Schedule A** and/or foreign applications claiming priority to the U.S. patent applications and issued patents identified in **Schedule A**, as well as the previously filed foreign applications identified in **Schedule A**;
- (g) any and all refilings, divisions, continuations, and/or other derivative applications of the foreign-filed applications;

- (i) any and all extensions of, and additions to, the Patents of countries foreign to the United States of America; and
- (j) all past, present, and future damages to, and rights to enforce/litigate, any of the above.

All of the above shall be held and enjoyed by Assignee for Assignee's own use and benefit, and for Assignee's successors, legal representatives, and assigns, to the full end of the term for which the Letters Patent may be granted, and Assignor does hereby authorize and request the Commissioner of Patents and Trademarks or such other bodies to issue the Letters Patent in accordance with this Assignment.

This Patent Assignment is executed effective as of September 21, 2010.
