Liu hereby assigns, and confirms the previous assignment, to Winvic, its successors and assigns, her entire right, title and interest pursuant to the terms of the Agreement, in:

United States Letters Patent 6,719,443

(the '443 patent) and in the inventions or improvements disclosed in the '443 patent, and in any reissue, reexamined claims, continuation, continuation-in-part, division, PCT or extension of the '443 patent, both U.S. and foreign. Liu further assigns to Winvic any priority rights therein, including the rights provided under the International Convention. Liu further assigns to Winvic the right to sue infringers for damages for past infringement of the '443 patent occurring before the date of this transaction. For said consideration Liu hereby agrees, upon the request and at the expense of Winvic, its successors and assigns, to execute any necessary oath, affidavit, declaration, or other paper relating thereto, and to execute any and all applications and other documents for Letters Patent in the United States and foreign countries on said invention or improvements that Winvic, its successors or assigns may deem necessary or expedient. Also for the said consideration, Liu authorizes Winvic to apply for patents for said invention or improvements in Liu's own name in such countries where such procedure is proper. Liu further agrees, upon the request of Winvic, its successors and assigns, to cooperate to the best of the ability of Liu with Winvic, its successors and assigns, in any proceedings or transactions involving such applications or patents. Such proceedings include the preparation and execution of preliminary statements, giving and producing evidence, and performing any and all other acts necessary to obtain, maintain, or to enforce the '443 patent and said Letters Patent, both United States and foreign, and vest all rights therein hereby conveyed in Winvic, its successors and assigns. Liu agrees that the '443 patent and said Letters Patent will be held and enjoyed by Winvic, its successors and assigns, to the full end of the term for which said '443 patent and said Letters Patent have been or will be granted, as fully and entirely as the same would have been held and enjoyed by Liu if this assignment had not been made.
