ASSIGNMENT

WHEREAS, WE, DAVID R. KAGELMACHER, of 504 Duane Drive, North Tonawanda, New York 14120, DAVID J. LEVAN, of 11352 New Oregon Road, North Collins, New York 14111, and JEFFREY MCKEOWN, of 1532 Marshall Farm Street, Wake Forest, North Carolina 27587, have invented certain new and useful improvements in an ABS SENSOR CORD ADAPTOR, for which we filed an application for a design patent in the United States on September 15, 2011, that has been assigned U.S. Patent Application No. 29/401,774 (the "Application"); and

WHEREAS, TECTRAN MFG. INC. ("Tectran"), a Delaware corporation, of 330 Greene Street, Buffalo, New York 14206-1025, is desirous of acquiring all right, title and interest in and to the Application, the invention described therein, and any and all applications and patents claiming priority therefrom:

NOW, THEREFORE, in consideration of the sum of One Dollar (\$1.00), and other good and valuable consideration to us in hand paid, the receipt and sufficiency of which is hereby acknowledged, we do hereby assign, sell, transfer, convey and set over to Tectran, free and clear of all liens, encumbrances and other restrictions or obligations, our entire right, title and interest in and to (i) the Application, (ii) all inventions and designs described in the Application and all patent applications relating thereto which have been or shall be filed in the United States, its territorial possessions and/or any foreign countries, (iii) all applications claiming the benefit of the filing date or claiming priority, directly or indirectly, from any of the foregoing, including without limitation any and all non-provisional applications, divisional applications, continuation applications, continuation-in-part applications, reissue applications, reexaminations, extensions and corresponding international, regional, national and other foreign applications, (iv) all rights, including without limitation all priority rights, under any international conventions, unions, agreements, acts and treaties, (v) all patents issuing or reissuing, directly or indirectly, from any of the foregoing, (vi) all other forms of protection that may be provided in any country for the Application or the disclosure therein, and (vii) all claims for damages, injunctive relief and all other remedies arising out of any infringement or violation of any of the foregoing assigned rights, with the right to sue for past infringement and to collect and retain damages that may have accrued prior to the effective date of this Assignment, or which have accrued or may hereafter accrue, for

Tectran's own use and benefit and for the use and benefit of Tectran's successors, assigns and other legal representatives (all of the foregoing hereafter referred to collectively as the "Subject Property").

AND we do hereby acknowledge and agree that Tectran, as the assignee of the entire right, title and interest thereto, shall have sole control over and sole and absolute discretion with respect to any decisions regarding the Subject Property, including without limitation with respect to any decisions regarding where to file patent applications and the prosecution and maintenance of any patent applications or patents.

AND we do hereby authorize and request that any patents issuing from any of the Subject Property be issued to Tectran, as the assignee of the entire right, title and interest thereto.

AND we do hereby agree to execute, upon request of Tectran, any and all documents that Tectran deems necessary or convenient to vest or record title in and to any of the Subject Property in Tectran, and to provide such other material, information or assistance related to the Subject Property as Tectran may deem necessary or convenient.

AND we do further understand, confirm and acknowledge that in executing this document we are transferring our entire interest in and to the Subject Property to Tectran, and that the attorney(s) appointed in the Application also represent Tectran and any co-inventor(s) identified in the Application. We consent to such multiple representation for the purpose of prosecuting any of the foregoing patent applications, and do hereby authorize the attorney(s) to take all future instructions from Tectran. We are unaware of any potential interest that we may have that differs from, or is adverse to, that of Tectran with respect to the prosecution of the foregoing patent applications, and we further acknowledge that, prior to executing this document, we did not seek or obtain any legal advice from Tectran's attorney(s) with respect to this Assignment and that we have been informed of our right to seek independent counsel of our own choosing and at our personal expense.
