ASSIGNMENT OF PATENTS AND PATENT APPLICATIONS

This Assignment of Patents and Patent Applications is made and entered into as of July 13, 2009 by and between Chevron Technology Ventures LLC, a Delaware limited liability company having its principal place of business at 3901 Briarpark, Houston, TX 77042 ("Assignor"), and Battery Patent Trust, a Delaware statutory trust having its principal place of business at Rodney Square North, 1100 North Market Street, Wilmington, Delaware 19890 ("Assignee").

WHEREAS, Assignor currently is the sole owner of the United States patents, any reissues and extensions thereof, which issue or have issued upon patent applications which correspond with or claim priority from any of such patents or any divisional, continuation-in-whole, or continuation-in-part thereof, and inventions disclosed therein (the "Patents") and applications for United States patents (the "Patent Applications") set forth on Appendix I, Appendix II and Appendix III hereof; and

WHEREAS, Assignee wishes to acquire all right, title and interest in the Patents and the Patent Applications.

NOW, THEREFORE, in consideration of these premises and the agreements contained herein, and other good and valuable consideration, the sufficiency of which is hereby acknowledged, Assignor and Assignee agree as follows:

1. Assignor, subject to the existing rights and licenses of third parties, shall and does hereby assign, convey, transfer and deliver, effective as of the date hereof, to Assignee, its successors, permitted assigns and legal representatives or nominees, Assignor's entire right, title and interest in and to the Patents and the Patent Applications for all countries, jurisdictions and political entities of the world, along with the right to sue for past infringement (including all current and future claims and causes of action), with respect to which, and to the extent to which, Assignor now has or hereafter acquires the right to so assign, convey, transfer and deliver, free and clear of all liens and encumbrances except for the licenses granted in respect of the Patents.
2. Assignee hereby accepts the assignments, transfers, conveyances and deliveries set forth in Section 1 above.
3. This Assignment of Patents and Patent Applications may be executed in any number of counterparts, each of which shall be deemed to be an original, and all of which shall be deemed to be one and the same instrument.
