1. Assignor represents that it is the owner of (1) the invention described and claimed in the Patent Application identified above, and (2) all related United States patents, patent applications, divisionals, reissues, re-examinations, continuations, continuations-in-part, certificates of invention, and the like that may issue from or which derive priority from the Patent Application (all of which are collectively referred to as the "Patent Rights"). 3. Assignor hereby assigns to Assignee all of Assignor's right, title, and interest in and to any claims (known or unknown, suspected or unsuspected) of any nature that Assignor has or may have against any party for infringement of the Patent Rights, and acknowledges receipt of fair and adequate consideration for such assignment.
4. Assignor agrees to execute all papers and perform all affirmative acts necessary to apply for and prosecute any patent application within the Patent Rights, and also to execute separate or additional assignments in connection with such patent applications as the Assignee may deem necessary.
5. Assignor agrees to execute all papers and documents and perform any act which may be necessary in connection with protecting the Patent Rights under any claims or provisions of the International Convention for Protection of Industrial Property or similar agreements.

7. Assignor agrees to assist Assignee with respect to any infringement action, suit, or proceeding relating to the enforcement of any of the Patent Rights. In any such action, suit, or proceeding, Assignor will be represented by the same legal counsel as Assignee at Assignee's expense.
8. Assignor hereby authorizes and requests the Commissioner of Patents to issue any and all Letters Patent of the United States resulting from any patent application within the Patent Rights to Assignee, as the assignee of the entire interest therein.
