ASSIGNMENT OF INVENTION, PATENT APPLICATION(S) AND/OR PATENT(S)

I, TROY C. BUTLER, in consideration of good and valuable consideration paid to me, agree to assign, and hereby do assign, transfer and set over to FORTUNE FORGE LLC (hereinafter designated as the Assignee) at the address of 24651 Middle Road, Wilder, ID 83876, the entire right, title and interest in and to the invention known as "ACCESSORY FOR WEAPON MUZZLE," for which a non-provisional utility application was filed in the United States Patent and Trademark Office on June 15, 2011, given Serial No. 13/160,991, which patent application is also hereby assigned, transferred, and set over to Assignee. I also agree to assign, and hereby do assign, any and all future U.S. design and utility patent applications (including provisional, non-provisional, continuation, continuation-in-part, and divisional applications), PCT applications, and National Phase applications claiming priority of the above-identified application. I hereby give the office of Pedersen & Company, PLLC permission to fill in the filing date and the serial number of the above non-provisional application filed in June 2011, when known, and the filing dates and serial numbers of said future U.S. design and utility patent applications, PCT applications, and National Phase applications: _____

1) I agree to execute all papers necessary or convenient in connection with each application to protect the invention, and any continuation, continuation-in-part, or divisional applications thereof, and also to execute separate assignments in connection with such applications as the Assignee may deem necessary or expedient.

2) I agree to execute all papers necessary or convenient in connection with any interference which may be declared concerning any application relating to the invention, or any continuation, continuation-in-part, or division thereof, and to cooperate with the Assignee in every way possible in obtaining evidence and going forward with any such interference.

3) I agree to execute all papers and documents and perform any act which may be necessary or convenient in connection with claims or provisions of foreign patent offices, including those operating under the Patent Cooperation Treaty (PCT), International Convention for Protection of Industrial Property, or similar treaties or agreements.

4) I agree to perform all affirmative acts which may be necessary or convenient to obtain grants of valid patents to the Assignee relating to the invention.

5) I hereby authorize and request the Commissioner of Patents and Trademarks, and all equivalent foreign patent office officials, to issue any and all Letters Patents resulting from said applications or any continuation, continuation-in-part, or divisional applications thereof, to the said Assignee, as Assignee of the entire interest, and hereby covenant that I have full right to convey the entire interest herein assigned, and that I have not executed, and will not execute, any agreement in conflict herewith.

6) I hereby grant the Assignee and its duly authorized representatives the power to insert on this Assignment any further identification which may be necessary or desirable in order to comply with the rules of the United States Patent and Trademark Office, and any equivalent foreign patent office, for recordation of this document.

NOW THEREFORE, Assignor hereby forever transfers and assigns unto Assignee all right, title, and interest, in and to the subject invention(s); the same to be held and enjoyed by Assignee, its heirs, successors, assigns, and legal representatives, as completely as if the inventions would have been held by Assignor had this assignment not been made, including the right to sue for past infringements.
