ASSIGNMENT

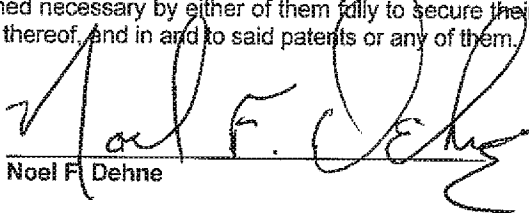

WHEREAS, We, Noel F. Dehne and Mark T. Domm, have invented a FRICTION DRIVE CONVEYOR ASSEMBLY for which we are about to make application for Letters Patent of the United States; and

WHEREAS, JERVIS B. WEBB COMPANY (hereinafter "WEBB"), a corporation of Michigan, is desirous of acquiring certain rights thereunder and of having certain other rights thereunder transferred by said inventor to its assignee and subsidiary, JERVIS B. WEBB INTERNATIONAL COMPANY (hereinafter "WEBB INTERNATIONAL"), a corporation of Michigan; and

NOW, THEREFORE, for valuable consideration, receipt of which is hereby acknowledged, we have agreed to and do hereby sell, assign, and transfer unto WEBB our entire right, title, and interest in and throughout the United States of America (including its territories and dependencies) and Canada, in and to said invention, said application and any and all patents (including extensions thereof) of the United States of America and Canada, which may be granted on said invention, or any part thereof, or on said application or any provisional, utility, divisional, continuing, renewal, reissue, or other patent application, based in whole or in part thereon, or based upon said invention; and at the request and with the assent of WEBB, we have agreed to and do hereby sell, assign, and transfer unto WEBB INTERNATIONAL our entire right, title and interest in and throughout all countries other than the United States of America and Canada, in and to said invention and any and all patents of such other countries which may be granted on said invention or any part thereof.

TO BE RESPECTIVELY HELD AND ENJOYED by said corporations, their successors and assigns, to the full ends of the respective terms for which said patents or any of them may be granted, as fully and entirely as the same would have been held and enjoyed by us had this sale and assignment not been made;

AND, we hereby covenant and agree for ourselves, our heirs, and our legal representatives, to assist WEBB in the prosecution of said application and in any interference which may arise involving said invention, and, upon the request of WEBB or of WEBB INTERNATIONAL, to execute without further consideration all other documents that might be deemed necessary by either of them fully to secure their respective interests as aforesaid in and to said invention or any part thereof, and in and to said patents or any of them.
