PATENT ASSIGNMENT

WHEREAS, Natural Source International, Ltd, a New York corporation having a principal place of business at 315 Madison Ave, 16th Floor, New York, NY 10017 ("Assignor"), is the owner of all right, title, and interest in and to inventions and improvements disclosed in the applications for Letters Patent or issued Letters Patent as set forth on the attached Schedule of Patents and Applications; and

WHEREAS, Molecular International Research, Inc., a limited liability company organized under the laws of the State of New York, having a principal place of business at 315 Madison Ave, 16th Floor, New York, NY 10017 ("Assignee"), is desirous of acquiring all right, title and interest in and to said patents and applications;

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Assignor, by these presents does sell, assign and transfer unto Assignee, the full, exclusive and entire right, title, and interest in and to said patents and applications, in and to any non-provisionals, divisions, continuations, renewals, reissues, and national stage applications thereof, and in and to all inventions and improvements disclosed and described in said patents and applications;

For the same consideration, Assignor, by these presents does sell, assign, and transfer to Assignee, the full, exclusive, and entire right, title and interest in and to any foreign application or patent corresponding to said patents or applications or claiming priority of said patent or applications, in whole or in part, in countries other than the United States, in and to any Letters Patent and similar protective rights granted on said foreign applications, and in and to the right to claim any applicable priority rights arising from or required for said foreign applications under the terms of any applicable conventions, treaties, statutes, or regulations; said foreign applications to be filed and issued in the name of Assignee, or its designee insofar as permitted by applicable law;

AND, for the same consideration, Assignor agrees, without charge to Assignee, to sign all lawful papers, execute all non-provisional, division, continuing, reissue and other applications claiming priority to said patents or applications, make all assignments and rightful oaths, and generally do everything reasonably possible to aid Assignee, its successors, assigns, and nominees, to obtain and enforce proper protection for all the inventions and improvements disclosed in said patents or applications in all countries throughout the world.

Assignor hereby agrees that (a) the provisions of this Patent Assignment are intended to be binding upon Assignor, its successors and assigns, and are for the benefit of Assignee, its successors and assigns, and all rights hereby granted to Assignee may be exercised by Assignee, its successors and assigns, and (b) except to the extent that federal law preempts state law with respect to the matters covered hereby, this Patent Assignment will be governed by and construed under the laws of the State of New York without regard to conflicts-of-laws principles that would require the application of any other law.
