**ASSIGNMENT BY INVENTOR**

THIS ASSIGNMENT is by **Samuel Peter Matthew Mulder** (the "Assignor(s)"). I/We, the Assignor(s), have invented certain inventions (the "Inventions") described in a United States Patent Application entitled **"METHODS AND SYSTEMS FOR MONITORING DOCUMENTS EXCHANGED OVER EMAIL APPLICATIONS"** (the "Application"), filed on November 29, 2011 and bearing application no. 13/306,765.

Workshare Technology, Inc., a Corporation of California having its principal place of business at 208 Utah Street, Suite 350, San Francisco, California 94103 (the "Assignee"), desire to acquire the entire right, title and interest in and to the Invention(s) and the Application, and in and to any patents (collectively, "Patents") that may be granted for the Invention(s) in the United States or in any foreign countries.

For valuable consideration, the receipt and sufficiency of which Assignor acknowledges, Assignor hereby sells, assigns, and transfers to Assignee, its successors, legal representatives and assigns, the entire right, title and interest in and to: the Invention(s), the Application, and any Patents; any divisions, continuations, and continuations-in-part of the Application and any other application claiming priority rights from the Application; any reissues, reexaminations, or extensions of any and all Patents; the right to file foreign applications directly in the name of Assignee; and the right to claim priority rights deriving from the Application (collectively, the "Rights"). Assignor warrants that Assignor own the Rights, and that the Rights are unencumbered. Assignor also agrees to not sign any writing or do any act conflicting with this assignment, and, without further compensation, sign all documents and do such additional acts as Assignee deem necessary or desirable to: perfect Assignee's enjoyment of the Rights; conduct proceedings regarding the Rights, including any litigation or interference proceedings; or perfect or defend title to the Rights. Assignor requests the Commissioner of Patents to issue any Patent of the United States that may be issued on the Invention(s) to Assignee. This Assignment may be executed in counterparts.

Date:
