WHEREAS, Assignors have invented certain new and useful improvements concerning Droplet-Based Multiwell Operations, the invention being described in and identified by an international patent application filed April 18, 2007 as International Patent Application Serial No. PCT/US2007/009379.

AND, WHEREAS, Assignee desires to acquire ownership rights, title and interest arising during a period coincident with Assignors' academic enrollment with Assignee, and whereas the desired ownership rights, title and interest extend to the application and the invention and improvements on the invention, and in Letters Patent on the same when granted in any and all countries.

NOW, THEREFORE, To Whom It May Concern, be it known that for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignors by these presents do hereby sell, assign, transfer, and convey unto the Assignee, its successors and assigns, the right, title and interest in and to the application and the invention arising during the period coincident with Assignors' enrollment with Assignee, and in any improvements on the invention made or acquired by Assignors during the period coincident with Assignors' enrollment with Assignee, and to all rights of priority to the same pursuant to the International Convention for the Protection of Industrial Property, and in and to any and all patent applications filed on the invention, and in and to any and all continuations, continuations-in-part, or divisions of any United States or foreign patent application filed on the invention, and in and to any and all Letters Patent of the United States of America and all foreign countries or reissues thereof which may be granted therefor or thereon, for the full end of the term for which said Letters Patent may be granted, the same to be held and enjoyed by said Assignee, its successors and assigns, as fully and entirely as the same would have been held and enjoyed by Assignors if this assignment and sale had not been made.

Assignors hereby request that said Letters Patent be issued in accordance with this Assignment.
