EMPLOYEE PATENT & SECRECY AGREEMENT

In consideration of my employment and/or retention by Bally Technologies Inc., a Nevada corporation (herein called the "Company"), I do hereby agree as follows:

1. CONFIDENTIAL INFORMATION.

9/8/2008

PATENT
REEL: 027685 FRAME: 0974

2. INVENTIONS PATENTS AND COPYRIGHTS DURING EMPLOYMENT.

I agree that all "inventions" (which shall herein be deemed to include, improvements, ideas, discoveries, whether patentable, copyrightable or not and whether reduced to tangible form or not) conceived or made by me or with others, whether or not during regular business hours, during the period of my employment with the Company, shall belong to the Company, unless specifically disclaimed by the Company, provided such "inventions" grow out of my work with the Company, or are related in any manner to the business:

- A. actually engaged in; or
- B. actively anticipated at the time of termination of employment,

by the Company or any present parent, sister corporation, affiliate or subsidiary of the Company, and I agree that I will:

- A. promptly and fully disclose such inventions to the Company;
- B. assign to the Company or its nominee for its sole use and benefit all of my right, title and interest in and to such inventions in the United States and foreign countries;
- C. sign and deliver promptly to the Company written instruments and give testimony or furnish other data as may be necessary or proper in the opinion of the Company to obtain, maintain and enforce patents or copyrights for such inventions in the United States and foreign countries, at the cost and expense of Company.

I hereby assign, sell, transfer, and release to the Company, all my right, title and interest in and to each and every "invention" now in existence or hereafter created (and improvements therein and thereto) which are required to be disclosed by the terms of this Agreement.

9/8/2008

These obligations shall continue beyond the termination of my employment with respect to such inventions made or conceived by me during the period of my employment.

3. OTHER AGREEMENTS.

This Agreement supersedes any existing agreement entered into by me and the Company relating generally to the same subject matter. To the best of my knowledge there is no other agreement to assign inventions that is now in existence between me and any other person, corporation or partnership, unless I have so indicated on an attachment to this Agreement.

4. MISCELLANEOUS.

I hereby agree that all inventions, patents, and copyrights covered by this Agreement, are and will be the sole property of the Company, and the Company is free to use them in any way, in its best interests. For instance, but without limitation, the rights enjoyed by the Company hereunder may be assigned, licensed, or sold without my consent at any time to any successor in interest of the Company, or to any third party.

5. RIGHT TO INJUNCTIVE RELIEF.

I acknowledge that a breach or threatened breach of any covenant made by me herein could cause irreparable harm to the Company; that damages would not adequately compensate the Company for such breach or threatened breach and that such damages would be difficult if not impossible to determine. Therefore, I agree that the Company shall be entitled to such equitable and injunctive relief as may be available to restrain and prevent a breach or threatened breach of any such covenant of this Agreement. Company shall have this right in addition to damages and any other remedy available at law or in equity.

9/8/2008

8. ADEQUATE REPRESENTATION.

I acknowledge that I have been advised by Company to seek the benefit and advice of legal counsel with respect to the negotiation, review, execution and delivery of this Agreement and that I have either followed such recommendation and so reviewed it with an attorney or have elected not to do so. In either event, I covenant that I fully and completely understand the terms and provisions hereof.
