## ASSIGNMENT OF PATENT PROPERTIES

WHEREAS, David R. Hill is a resident of Trinidad, Colorado ("Assignor"), and Hytech Energy, LLC, a California limited liability company has its principal place of business in Bakersfield, California ("Assignee"); and

WHEREAS, Assignor is the inventor of the invention (the "Invention") described and set forth in the below identified Patent and Patent Applications (collectively, the "Patent Properties"):

- A. United States Patent No. 6,085,836 entitled "Well Pump Control Using Multiple Sonic Level Detectors"
- B. United States Patent Application No. 11-016565 entitled "Apparatus for the Measuring of Fluid Levels and Pumping of the Same", filed on December 18, 2004.
- C. United States Patent Application No. 12-317,776 entitled "Tool for Use in Well Monitoring", filed on December 29, 2008.

WHEREAS, Assignee is desirous of acquiring Assignor's interest in the Patent Properties and in any Letters Patent which may be granted on the same anywhere in the world; and

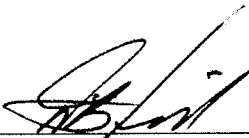

WHEREAS, Assignor has agreed to sell, convey and assign the entire right, title and interest in and to the Patent Properties to Assignee;

NOW THEREFORE, in consideration of good and valuable consideration, receipt of which by Assignor is hereby acknowledged, Assignor has sold, assigned and transferred, and by these presents does sell, assign and transfer to Assignee, its successors and assigns, Assignor's entire right, title and interest in and to the Patent Properties, and all associated patent rights, domestic and foreign, and all related domestic and foreign patent applications (and any resulting patents), including all continuations, divisions, revisions, extensions, reissues and reexaminations thereof, the inventions described therein, and in and to any Letters Patent which may hereafter be granted on the same in the United States or anywhere else in the world, all patents and patent applications which claim priority over the Application; together with all rights to profits, royalties, and damages for past and future infringement of the Patent Properties by any party and all rights to sue for and collect such profits, royalties and damages; the same to be held and enjoyed by Assignee for its own use and behalf, and for its successors and assigns, as fully and entirely as the same would have been held by Assignor had this Assignment and transfer not been made.
