## CONFIRMATORY PATENT ASSIGNMENT AGREEMENT

This Agreement is by and between David R. Karger (“Assignor”), and Akamai Technologies, Inc., a Delaware corporation (“Akamai”).

By virtue of his employment with Akamai, Assignor had agreed to assign to Akamai certain inventions and patent rights, namely application Serial No. 09/835,663, titled “Content delivery network (CDN) content server request handling mechanism with metadata framework support,” which, together with any continuations, divisions, and reissues thereof or patents to be obtained from such invention are herein referred to as the “Patents”;

For good and valuable consideration, receipt of which is acknowledged, Assignor does hereby assign, sell, transfer and convey unto Akamai, and its successors and assigns, his entire right, title and interest in each such Patent, and the entire right, title and interest in and to any and all claims, demands, causes of action or the like that Assignor may have, either at law or in equity, arising out of any actual or alleged past, present, or future infringement of the Patents. This assignment includes the right to sue for past infringement, if any.
