ASSIGNMENT

Architectural Exterior Products, Inc., a corporation of the State of Ohio, having a principle place of business at 25 Carma Drive, Trotwood, Ohio 45426 (hereinafter "Assignor") is the owner of the entire right, title, and interest in and to United States Patent Number 6,681,530, entitled "One-Piece Flashing," issued on January 27, 2004 (hereinafter "the Patent").

For good and valuable consideration, receipt of which is hereby acknowledged, Architectural Exterior Products, Inc., has sold, assigned, and transferred and does hereby sell, assign, and transfer unto DryFlekt Products, Inc., a corporation of the State of New York, having a principal place of business at 128 Radio Circle Drive, Mount Kisco, New York 10549 (hereinafter "the Assignee"), its heirs, successors, legal representatives, and assigns, its entire right, title, and interest in and to the invention throughout the World including without limitation the Patent, all of the subject matter disclosed therein, any and all applications and patents related to the Patent by statutory disclaimer or to which the Patent claims priority or benefit, any and all invention rights available under any and all conventions or treaties, and any and all rights to actions and damages for any and all past infringements in any and all jurisdictions (collectively hereinafter "the Patent Rights").

Assignor agrees to sign any and all papers or perform any and all acts necessary throughout the World to perfect the Assignee's right, title, and/or interest in connection with the Patent Rights, to file, prosecute, and/or maintain any and all applications, patents, and other property rights in connection with Patent Rights, to secure the grant of any and all patents and other property rights in connection with the Patent Rights, and to establish or acknowledge the Assignee's right to act in Assignor's place in connection with the Patent Rights.

Assignor further agrees to cooperate with and to assist the Assignee with any and all interference, reexamination, reissue, cancellation, and other proceedings occurring in connection with the Patent Rights throughout the World. Assignor hereby requests that any and all patents granted throughout the World on any and all applications in connection with the Patent Rights be issued in the name of the Assignee.

Assignor warrants that it has not previously made any sale, assignment, or transfer of my right, title, and interest in and to the Patent Rights that would conflict with this Assignment and that Assignor is not under any conflicting obligation to sell, assign, or transfer its right, title, and interest in and to the Patent Rights.
