ASSIGNMENT OF PATENT RIGHTS

Assignor desires to assign the full extent of its rights in and to the one or more inventions (the "**Invention(s)**") described in the patent applications and/or patents listed on attached Schedule A, filed in the United States Patent and Trademark Office, and other governmental offices, to Assignee. Assignee desires to acquire the entire right, title and interest in and to the assets and rights transferred pursuant to this Assignment of Patent Rights, made effective as of July 10, 2007 (this "**Assignment**").

NOW, THEREFORE, for valuable consideration, the receipt and sufficiency of which Robert D. Lindner, Jr., as collateral agent for the "Noteholders" listed on attached Schedule B ("**Assignor**"), acknowledges, Assignor hereby sells, assigns, and transfers to Mindfabric Holdings, LLC, an Ohio limited liability company ("**Assignee**"), the full extent of its right, title, and interest in and to any and all of the following (collectively, the "**Rights**");

- The Invention(s) and all rights with respect to the Invention(s);
- The patents listed on Schedule A and all United States patents or other governmental grants or issuances that may be granted with respect to the Invention(s) (the "**Patent(s)**");
- The patent applications listed on Schedule A and all divisionals, continuations, and continuations-in-part or other applications claiming priority rights from the applications and/or patents listed on Schedule A (the "**Application(s)**");
- All reissues, reexaminations, extensions or registrations of any and all of the Application(s) or the Patent(s);
- All non-United States patents, patent applications, and counterparts relating to the Invention(s), the Application(s), and the Patent(s) including, without limitation, certificates of invention, utility models, industrial design protection, design patent protection, and other governmental grants or issuances, and including the right to file foreign applications directly in the name of Assignee, its successors and assigns;
- The right to claim priority rights deriving from the Application(s);
- All causes of action and remedies related to the Application(s), the Invention(s), and the Patent(s) (including, without limitation, the right to sue for past, present or future infringement, misappropriation or violation of rights related to the Application(s), the Invention(s), and the Patent(s));
- All rights to collect royalties and other payments under or on account of any of the Application(s), the Invention(s), and the Patent(s); and
- Any and all other rights and interests arising out of, in connection with, or in relation to the Application(s), the Invention(s), and the Patent(s).

Assignor represents, warrants and covenants that:

(a) Assignor has the full power and authority, and has obtained all third party consents, approvals and/or other authorizations required to enter into this Agreement and to carry out its obligations hereunder, including the assignment of the Rights to Assignee; and

(b) Assignor owns, and by this document assigns to Assignee, all right, title, and interest to the Rights, including, without limitation, all right, title, and interest to sue for infringement of the Rights. Assignor has obtained and properly recorded previously executed assignments for the Rights as necessary to fully perfect its rights and title therein in accordance with governing law and

regulations in each respective jurisdiction. The Rights are free and clear of all liens, claims, mortgages, security interests or other encumbrances, and restrictions. There are no actions, suits, investigations, claims or proceedings threatened, pending or in progress relating in any way to the Rights. There are no existing contracts, agreements, options, commitments, proposals, bids, offers, or rights with, to, or in any person to acquire any of the Rights.

Assignor will not sign any writing or do any act conflicting with this Assignment, and, without further compensation, will sign all documents and do such additional acts as Assignee, its successors, legal representatives and assigns deem necessary or desirable to: perfect enjoyment of the Rights; conduct proceedings regarding the Rights, including any litigation or interference proceedings; or perfect or defend title to the Rights. Assignor requests the respective patent office or governmental agency in each jurisdiction to issue any and all patents, certificates of invention, utility models or other governmental grants or issuances that may be granted upon any of the Rights in the name of the Assignee, as the assignee to the entire interest therein.

The terms and conditions of this Assignment will inure to the benefit of Assignee, its successors, legal representatives and assigns and will be binding upon Assignor, its successors, legal representatives and assigns.
