ASSIGNMENT
IP09-014CIP CIP

IN CONSIDERATION OF FOUR DOLLARS (\$4.00), paid to me by the Energy & Environmental Research Center Foundation[®], the receipt and sufficiency of which are hereby acknowledged, I, Joshua R. Strege ("ASSIGNOR"), having made an invention entitled "Process for the Conversion of Renewable Oils to Liquid Transportation Fuels," while in the employ either as an employee or consultant of the University of North Dakota Energy & Environmental Research Center, do hereby ASSIGN, SELL, and CONVEY to the Energy & Environmental Research Center Foundation, a North Dakota corporation having a business address of 15 North 23rd Street, Stop 9017, Grand Forks, ND 58202-9017 (sometimes hereinafter called "ASSIGNEE"), its successors and assigns, the entire right, title, and interest throughout the world in and to:

1. Said invention entitled "Process for the Conversion of Renewable Oils to Liquid Transportation Fuels."
2. United States of America patent application on said invention, filed concurrently herewith or as U.S. Patent Application No. 13/335,803, filed December 22, 2011, entitled "Process for the Conversion of Renewable Oils to Liquid Transportation Fuels."
3. All applications for patent or like protection on said invention that have now been or may in the future be made by me or my legal representatives, including any continuation, continuation-in-part, and any other utility applications that may be based on this invention, whether in the United States of America or any other place anywhere in the world.
4. All patents and like protection that have now been or may in the future be granted on said invention to me or my legal representatives, whether in the United States of America or in any other country or place anywhere in the world.
5. All substitutions for and divisions, continuations, continuations-in-part, renewals, reissues, extensions, and the like of said applications and patents and like grants, including without limitation, those obtained or permissible under past, present, and future laws and statutes.
6. All rights of action on account of past, present, and future unauthorized use of said invention and for infringement of said patents and like protection.
7. The right of ASSIGNEE to file in its name applications for patents and like protection for said invention in any country or countries foreign to the United States.
8. All international rights of priority associated with said invention, applications, patents, and like protection.

I also covenant that I, and my heirs, legal representatives, assigns, administrators, and executors, will execute all papers and perform such other acts as may be reasonably necessary to give ASSIGNEE, its successors and assigns, the full benefit of this Assignment.

EXECUTED on the date indicated below, opposite my signature.

ASSIGNOR

IN CONSIDERATION OF FOUR DOLLARS (\$4.00), paid to me by the Energy & Environmental Research Center Foundation[®], the receipt and sufficiency of which are hereby acknowledged, I, Benjamin G. Oster ("ASSIGNOR"), having made an invention entitled "Process for the Conversion of Renewable Oils to Liquid Transportation Fuels," while in the employ either as an employee or consultant of the University of North Dakota Energy & Environmental Research Center, do hereby ASSIGN, SELL, and CONVEY to the Energy & Environmental Research Center Foundation, a North Dakota corporation having a business address of 15 North 23rd Street, Stop 9017, Grand Forks, ND 58202-9017 (sometimes hereinafter called "ASSIGNEE"), its successors and assigns, the entire right, title, and interest throughout the world in and to:

1. Said invention entitled "Process for the Conversion of Renewable Oils to Liquid Transportation Fuels."
2. United States of America patent application on said invention, filed concurrently herewith or as U.S. Patent Application No. 13/335,803, filed December 22, 2011, entitled "Process for the Conversion of Renewable Oils to Liquid Transportation Fuels."
3. All applications for patent or like protection on said invention that have now been or may in the future be made by me or my legal representatives, including any continuation, continuation-in-part, and any other utility applications that may be based on this invention, whether in the United States of America or any other place anywhere in the world.
4. All patents and like protection that have now been or may in the future be granted on said invention to me or my legal representatives, whether in the United States of America or in any other country or place anywhere in the world.
5. All substitutions for and divisions, continuations, continuations-in-part, renewals, reissues, extensions, and the like of said applications and patents and like grants, including without limitation, those obtained or permissible under past, present, and future laws and statutes.
6. All rights of action on account of past, present, and future unauthorized use of said invention and for infringement of said patents and like protection.
7. The right of ASSIGNEE to file in its name applications for patents and like protection for said invention in any country or countries foreign to the United States.
8. All international rights of priority associated with said invention, applications, patents, and like protection.

I also covenant that I, and my heirs, legal representatives, assigns, administrators, and executors, will execute all papers and perform such other acts as may be reasonably necessary to give ASSIGNEE, its successors and assigns, the full benefit of this Assignment.
