**ASSIGNMENT OF PATENT**

WHEREAS, I, David Anthony SMALL (the "Assignor"), residing at the address stated below, have made a new and useful invention entitled **METHOD AND APPARATUS FOR FORMING A BEAM** (the "Invention") for which I have filed United States patent application No 13/377,808 (the "Application");

WHEREAS I represent and warrant that I am the only inventor of the Invention;

AND WHEREAS, LOCATA CORPORATION PTY LTD (The "Assignee"), a corporation organised under the laws of the Australian Capital Territory, AUSTRALIA, having a place of business at 111 Canberra Avenue, Griffith ACT 2603, AUSTRALIA, is desirous of acquiring the same;

NOW, THEREFORE, for and in consideration of One Dollar (\$1.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged by me, I have assigned, sold, transferred and set over and by these presents do assign, sell, transfer and set over unto the Assignee the entire right, title interest in and to the Application and all United States Letters Patent which may be granted therefore, including all divisions, continuations, reissues, re-examinations and extensions thereof, the same to be held and enjoyed by the Assignee, its assigns and successors, as fully and entirely as the same would have been held and enjoyed by me, had this assignment not been made.

I covenant and agree that I will, at any time upon the request and at the expense of the Assignee, execute and deliver any and all papers and do all lawful acts that may be necessary or desirable, in the opinion of the Assignee, to enable and assist the Assignee to (a) obtain Letters Patent for the Invention; (b) establish, maintain and secure title in the Assignee, its successors and assigns, to the Invention, Application and Letters Patent therefore, including making such title of lawful public record; and (c) defend, establish or otherwise preserve the validity of the Letters Patent and enforce rights therein against any and all infringers, and perform such other acts as are necessary to give full force and effect to this assignment.

I represent and covenant that no assignment, mortgage, sale, license, pledge, encumbrance or alienation of the Invention or Application has been or will be made or entered into which would conflict with this Assignment.

IN TESTIMONY WHEREOF, I have duly executed this assignment on the date as indicated next my name.
