WHEREAS, Assignor and Assignee entered into an Assignment of United States Patents and Patent Applications on September 7, 2006, (hereinafter, the "Patent Assignment Agreement");

WHEREAS, in the Patent Assignment Agreement, the Assignor sold, assigned, transferred, and set over unto the Assignee, its successors, legal representatives, and assigns, the entire right, title, and interest in and to United States Patent No. 6,914,625 (collectively, the "Assigned Assets"), the entire right, title, and interest in and to any and all applications for Letters Patent of the United States of America or other countries claiming priority to said Assigned Patent, and the entire right, title, and interest in and to any and all Letters Patents of the United States of America or other countries that may be granted therefor and thereon, (collectively, the "Assigned Assets"); and
