ASSIGNMENT OF PATENT RIGHTS

Washington Mutual, Inc., a corporation organized under and pursuant to the laws of Washington having its principal place of business at 1201 Third Avenue, Suite 3000, Seattle, Washington 98101 (the "**Assignor**") desires to assign its entire right, title and interest in and to the inventions described in the Applications and Patents listed in Schedule X (collectively the "**Inventions**") to **JPMorgan Chase Bank, N.A.**, a national association, with a place of business at 270 Park Avenue, New York, New York 10017 ("**Assignee**"). Therefore, for valuable consideration, the receipt and sufficiency of which Assignor acknowledges, Assignor hereby sells, assigns, and transfers to Assignee, the full extent of Assignor's right, title, and interest, if any, in and to the Inventions and all corresponding rights, including but not limited to the following (collectively, the "**Rights**"):

- The Inventions and all rights in any country in the world with respect to the Inventions;
- All letters patents, United States patents or other governmental grants or issuances that may be granted or issue with respect to the Inventions (the "**Patents**");
- All provisionals, non-provisionals, divisionals, continuations, and continuations-in-part or other applications filed heretofore or hereafter with respect to the Inventions and/or claiming priority rights from such applications and/or the Patents (the "**Applications**");
- All reissues, reexaminations, extensions or registrations of any and all of the Applications and the Patents;
- All non-United States patents, patent applications, and counterparts relating to the Inventions, the Applications, and the Patents including, without limitation, certificates of invention, utility models, industrial design protection, design patent protection, and other governmental grants or issuances, and including the right to file foreign applications directly in the name of Assignee, its successors and assigns;
- The right to claim priority rights deriving from the Patents and/or Applications;
- All causes of action and remedies related to the Inventions, Applications, and Patents (including, without limitation, the right to sue for past, present or future infringement, provisional rights under 35 U.S.C. § 154, misappropriation or violation of rights related to the Inventions, Applications and Patents);
- All rights to past damages and to collect royalties and other payments under or on account of any of the Inventions, Applications and Patents; and
- Any and all other rights and interests arising out of, in connection with, or in relation to the Inventions, Applications and Patents.

Assignor will not sign any writing or do any act conflicting with this Assignment, and, without further compensation, will sign all documents and do such additional acts as Assignee, its successors, legal representatives and assigns deem necessary or desirable to: perfect enjoyment of the Rights; conduct proceedings regarding the Rights, including any litigation or interference proceedings; or perfect or defend title to the Rights. Assignor requests the respective patent office or governmental agency in each jurisdiction to issue any and all patents, certificates of invention, utility models or other governmental grants or issuances that may be granted upon any of the Rights in the name of Assignee, as the assignee to the entire interest therein. As of the date of this Agreement, Assignor, upon knowledge and belief, covenants that it has the full right to convey the entire interest herein assigned, if any, and has not granted any right or license to make, have made, use, import, sell or offer to sell the Inventions, Patent and/or Applications, to anyone except said Assignee.

The terms and conditions of this Assignment will inure to the benefit of Assignee, its successors, legal representatives and assigns and will be binding upon Assignor, its successors, legal representatives and assigns.
