## PATENT ASSIGNMENT

**WHEREAS**, DB Ply-Light Systems, LLC ("*Assignor*"), a New York limited liability company, having an address at 51 La Crescenta Drive, Camarillo, California 93010-8408, owns the patents, pending applications, and all inventions described therein, listed in Schedule A (the "*Patents*");

**WHEREAS**, Walter A. Johanson ("*Assignee*"), an individual residing at 51 La Crescenta Drive, Camarillo, California 93010-8408, desires to acquire the Patents owned by Assignor; and

**WHEREAS**, for one-dollar (USD1.00) and other good and valuable consideration, Assignor has agreed to assign all its right, title, and interest in and to the Patents to Assignee.

**NOW, THEREFORE**, in consideration of the foregoing premises, and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Assignor confirms having assigned and does hereby assign, transfer, and sell to Assignee all right, title, and interest in and to the Patents, in any and all continuations-in-part, continuations, divisions, divisional, substitutes, reissues, reexaminations, extensions thereof, and all other applications for letters patents relating thereto which have been filed in any jurisdiction throughout the world, all rights, together with all priority, including all future conventions, unions, agreements, acts and treaties, including any parent applications of the Patents, and any counterparts to any of the foregoing that may exist or be filed in any jurisdiction, the same to be held and enjoyed by Assignee for its own use and enjoyment, and for the use and enjoyment of its successors and assigns and other legal representatives, to the end of the term or terms for which letters patent are or may be granted or reissued as fully and entirely and to the same extent as all of the foregoing would have been held and enjoyed by the Assignor if this assignment had not been made; and together with all rights to bring suit and claims for damages, injunctive, or any other relief by reason of infringements of such letters patents resulting from the Patents, with the right to sue for past infringement, and collect the same for its own use and behalf and for the use and behalf of its successors, assigns and other legal representatives.

Assignor will, at any time, upon request of Assignee, execute, acknowledge, and deliver all such further acts and deeds, assignments, instruments of transfer, or conveyance, registrations for assignments, powers of attorney, and assurances as reasonably may be required for the assigning, assuring, and confirming to Assignee, or to its successors and assigns, or for aiding and assisting in collecting and reducing to possession, the Patents, and any such other or further patent or application, which may relate to the Patents, assigned under this Patent Assignment. Assignor hereby irrevocably appoints Assignee as Assignor's attorney-in-fact to take such actions and make, execute, acknowledge and deliver all such documents as may from time to time be necessary to confirm the conveyance of all rights granted herein to Assignee, its successors and/or assigns. Assignor warrants to Assignee and to Assignee's successors and assigns that Assignor owns the Patent and has the full power and authority to make the foregoing assignment, and that it will not execute any documents or agreements that conflict with any rights or property assigned herein.

This Patent Assignment shall be binding upon the successors, assigns, nominees, or other legal representatives of Assignor.

IN WITNESS WHEREOF, this Assignment is executed on this 23 day of March, 2012.
