## PATENT ASSIGNMENT

This assignment is made on March 13, 2012 by Leigh Martin ("Assignor") to Accessory Maven, LLC, a limited liability company having a place of business in Merritt Island, Florida ("Assignee").

WHEREAS, Assignor has invented a new, original and useful invention entitled HIDDEN FOUNDATION FOR FORMING HAIR AND METHOD OF USE (Invention), for which a United States Patent Application has been filed by Ted Masters & Associates, patent practitioner number 40742, on October 15, 2011, Application filing receipt No. 13/317,302 (U.S. Patent Application);

WHEREAS, Assignor believes themselves to be the original, first, and sole inventor of the Invention disclosed and claimed in the Patent Application; and

WHEREAS, Assignee desires to acquire by formal, recordable assignment the entire right, title, and interest in and to said Invention, and said Patent Application in the United States and throughout the world.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor hereby sells, assigns, and transfers to Assignee, the entire right, title, and interest in and to said Invention, and said Patent Application for said Invention in the United States and throughout the world, including the right to file foreign applications directly in the name of Assignee and to claim for any such foreign applications any priority rights to which such applications are entitled under international conventions, treaties, or otherwise.

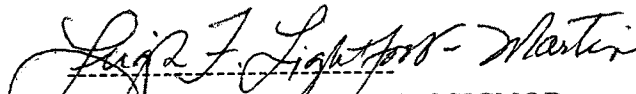

Further Assignor agrees that, upon request and without further compensation, but at no expense to Assignee, the inventor and the legal representatives and assigns will do all lawful acts, including the execution of papers and the giving of testimony, that may be necessary or desirable for obtaining, sustaining, reissuing, or enforcing said Patent Application in the United States and throughout the world for said Invention, and for perfecting, recording, or maintaining the title of Assignee, their successors and assigns, to said Invention, and said Patent Application filed, and any patents granted for said Invention in the United States and throughout the world.

Assignor represents and warrants that they have not granted and will not grant to others any rights inconsistent with the rights granted herein.

Assignors authorize and request the Commissioner of Patents and Trademarks of the United States and of all foreign countries to issue any Patent granted for said Invention, whether on another patent or other application for said Invention, on said Patent Application, or on any subsequently-filed provisional, non-provisional, regular utility, divisional, continuation, continuation-in-part, reissue, or other patent application or other application, to Assignee, its successors and assigns, as the assignee of the entire interest in said Invention.
