ASSIGNMENT

In consideration of good and valuable consideration, the receipt of which is hereby acknowledged, we, the undersigned Doddaballapur N. Jayasimha, Drew E. Wingard and Stephen W. Hamilton, hereby sell, assign, and transfer to Sonics, Inc. a corporation of Delaware, having a principal place of business at 890 North McCarthy Boulevard, Suite 200, Milpitas California 95035, United States, ("Assignee"), and its successors, assigns, and legal representatives, the entire right, title, and interest for the United States and all foreign countries, in and to any and all improvements that are disclosed in the application for the United States patent that has been executed by the undersigned prior hereto or concurrently herewith on the dates indicated below and is entitled:

APPARATUS AND METHODS FOR AN INTERCONNECT POWER MANAGER

and in and to said application and all divisional applications, continuation applications, continued prosecution applications, continuation-in-part applications, substitute applications, renewal applications, reissue applications, reexaminations, extensions, and all other patent applications that have been or shall be filed in the United States and all foreign countries on any of said improvements; and in and to all original patents, reissued patents, reexamination certificates, and extensions, that have been or shall be issued in the United States and all foreign countries on said improvements; and in and to all rights of priority resulting from the filing of said United States application.

We, the undersigned Doddaballapur N. Jayasimha, Drew E. Wingard and Stephen W. Hamilton, hereby sell, assign, and transfer to Sonics, Inc., the entire right, title, and interest for the United States and all foreign countries, in and to U.S. Provisional Application, to which this application claims priority to, including specifically U.S. Provisional Application titled "A FLEXIBLE NETWORK ON A CHIP." filed on September 19, 2011 having application serial number 61/536,459.

I hereby authorize the above designated assignee to insert here in parenthesis (_____) the filing date and application number of any of said applications when known.

We agree that said Assignee may apply for and receive a patent or patents for said improvements in its own name; and that, when requested, without charge to, but at the expense of, said Assignee, its successors, assigns, and legal representatives, to carry out in good faith the intent and purpose of this Assignment, the undersigned will execute all divisional applications, continuation applications, continued prosecution applications, continuation-in-part applications, substitute applications, renewal applications, reissue applications, reexaminations, extensions and all other patent applications on any and all said improvements; execute all rightful oaths, assignments, powers of attorney, and other papers; communicate to said Assignee, its successors, assigns, and representatives all facts known to the undersigned relating to said improvements and the history thereof; and generally assist said Assignee, its successors, assigns, or representatives in securing and maintaining proper patent

protection for said improvements and for vesting title to said improvements, and all applications for patents and all patents on said improvements, in said Assignee, its successors, assigns, and legal representatives; and

covenant with said Assignee, its successors, assigns, and legal representatives that no assignment, grant, mortgage, license, or other agreement affecting the rights and property herein conveyed has been made to others by the undersigned, and that full right to convey the same as herein expressed is possessed by the undersigned.

In accordance with 35 USC 115(e) I declare that as an individual who is under an obligation of assignment of the above application for patent that I make the following required statements under subsections (b) and (c) in this assignment document executed by myself.

The patent application was made or was authorized to be made by an affiant, by an Assignee which the declarant is subject to assign their rights to the invention to, or by the declarant themselves. I believe the inventor(s) named below to be the original inventor or the original joint inventors and first inventor(s) of the subject matter in the patent application which is claimed and for which a patent is sought on.
