ASSIGNMENT

WHEREAS, James Ives, an individual and citizen of the United Kingdom, residing at 66 Fitzwilliam Square, Dublin 2, Ireland; David Taaffe, an individual and citizen of Ireland, residing at South Dock House, Hanover Quay, Dublin 2, Ireland; and Paul Dunne, an individual and citizen of Ireland, residing at 12 Homefarm Park, Drumcondra, Dublin 9, Ireland (hereinafter jointly referred to as Assignor), are the owners of all right, title and interest in and to certain new and useful improvements in AN ENHANCED METHOD OF CONTROLLING THE OUTPUT OF A HYDROELECTRIC TURBINE GENERATOR for which an application for United States Letters Patent having Serial No. 13/264,667 was filed on October 14, 2011, based on International PCT Patent Application No. PCT/EP2009/009071, filed December 17, 2009, claiming priority on European Patent Application No. 09005504.7, filed April 17, 2009;

WHEREAS, Openhydro IP Limited, a corporation of Ireland, having a place of business at South Dock House, Hanover Quay, Dublin 2, Ireland (hereinafter referred to as Assignee), is desirous of acquiring, the entire right, title and interest in and to said invention and in and to any Letters Patent that may be granted therefor in the United States and in any and all foreign countries.

NOW, THEREFORE, in consideration of the sum of one dollar (\$1.00), the receipt of which is hereby acknowledged, and for other good and valuable considerations, Assignor hereby sells, assigns and transfers unto said Assignee the full and exclusive right, title and interest to the said invention in the United States and in all foreign countries and the entire right, title and interest in and to any and all Letters Patent which may be granted therefor in the United States and in any and all foreign countries and in and to any and all divisions, reissues, continuations, continuations-in-part, substitutions, renewals, additions, and/or extensions thereof or thereto, including the full right to claim for any such applications the benefits of the International Convention, as well as any and all claims, causes of action and rights of action (past, present and future) anywhere in the world arising out of or as a result of the said invention, application and/or Letters Patent which may be granted therefor in the United States or in any and all foreign countries.

Assignor hereby authorizes and requests the Patent Office Officials in the United States and in any and all foreign countries to issue any and all of said Letters Patent, when granted, to said Assignee as the owner of the entire right, title and interest in and to the same, for the sole use and behoof of said Assignee, its successors and assigns.

FURTHER, Assignor agrees to communicate to said Assignee or its representatives any facts known to Assignor respecting said invention, and testify in any legal proceeding, sign all lawful papers, execute all divisional, continuation, continuation-in-part, substitution, renewal, extension, addition and reissue applications, execute all necessary assignment papers to cause any and all of said Letters Patent to be issued to said Assignee, make all rightful oaths and generally do everything possible to aid said Assignee, its successors and assigns, to obtain and enforce proper protection for said invention in the United States and in any and all foreign countries.
