## PATENT ASSIGNMENT

1. WHEREAS, **GEI Development, LLC**, a limited liability company duly organized and existing under and by virtue of the laws of the State of Missouri (hereinafter referred to as "Assignor"), has filed certain patents and patent applications of the United States and other countries covering the inventions disclosed therein; and

2. WHEREAS, **Electrum Partners, LLC**, a limited liability company duly organized and existing under and by virtue of the laws of the State of New Jersey (hereinafter referred to as "Assignee"), is desirous of acquiring Assignor's rights in such patent applications;

3. NOW, THEREFORE, in consideration of the sum of ten dollars (\$10.00) and other good and valuable consideration by Assignee to Assignor in hand paid, receipt of all of which is hereby acknowledged, Assignor has agreed to and does hereby sell, assign and transfer, without representation or warranty, unto Assignee, its successors and assigns, all of Assignors right, title and interest in and throughout the world, in and to said patent applications and all reissues thereof and reexamination certificates therefore, and the inventions disclosed therein, including Assignors full right to sue for and recover all damages recoverable from past infringements of said patents and patent applications; including specifically, without limiting the generality of the foregoing, the United States patents and patent applications listed below; and Assignor has further agreed to and does hereby sell, assign and transfer, without representation or warranty, unto Assignee, its successors and assigns, all of Assignors right, title and interest in and throughout the world, in and to said inventions, any other applications (including provisional, non provisional, divisional, continuing, continuing-in-part, or reissue application) based in whole or in part on said inventions, and any and all patents (including extensions thereof) and patent applications of any country which have been or may be granted on any of the aforesaid applications or on said inventions or any part thereof; including, specifically, without limiting the generality of the foregoing, the patents and patent applications listed below.

4. TO BE HELD AND ENJOYED BY Assignee, its successors and assigns, to the full ends of the respective terms for which said patents have been or may be granted, as fully and entirely as the same would have been held and enjoyed by Assignor had this sale and assignment not been made.

5. AND Assignor hereby agrees to execute without further consideration any further lawful documents and any further assurances, and any provisional, nonprovisional, divisional, continuing, continuing-in-part, reissue application or other applications for patents of any country, that may be deemed necessary by said Assignee, its successors or assigns, fully to secure its interest as aforesaid in and to said inventions or any part thereof, and in and to said several patents and patent applications or any of them.

6. THE PENDING U.S. PATENT APPLICATIONS ARE AS FOLLOWS:

A. US Patent, "Gas induction Bustle for use with a Flare or Exhaust Stack." Patent No. US 7,442,035 B2; issue date: October 28, 2008; and

B. US Patent Application, "Methods of Reducing Greenhouse Gases & Generating Carbon Credits" (filed 3/6/2007); Serial #60/893345;
