NOW, THEREFORE, in exchange for valuable and legally sufficient consideration, the sufficiency of which is hereby acknowledged, Assignor has sold, assigned, transferred and set over, and does hereby sell, assign, transfer and set over unto the Assignee, its successors and assigns, all of Assignor's right, title and interest in and throughout the world, in and to said patent applications and as fully set forth and described in Appendix A, together with all divisionals, continuations, continuations-in-part, reissues and extensions thereof, any patents ("Letters Patents") which may be granted therefrom or thereupon as and any inventions relating thereto ("Inventions"), including Assignor's full right to sue for and recover all damages recoverable from past infringements of said patent applications and any Letters Patent resulting therefrom; any and all rights to file applications, the same to be held and enjoyed by Assignee to the full end of the term for which said Letters Patents may be granted, as fully and entirely as the same would have been held and enjoyed by Assignor alone had this assignment and sale not been made; and Assignor hereby agrees to sign all necessary papers and do all lawful acts reasonably requisite in connection with assignment and enforcement of said Letters Patents and Inventions.

AND Assignor hereby authorizes and requests the Patent Offices of the countries wherein said patent applications are filed to issue any and all Letters Patent which may be granted upon said foreign country patent applications to Assignee, its successors and assigns;
