ASSIGNMENT

WHEREAS, the undersigned has made an invention entitled "Lidar Management Device with Target Tracking and Method for Use of Same" for which an application for United States Letters Patent was filed on July 28, 2009 and assigned Application Serial No. 12/510,915.

WHEREAS, Applied Concepts, Inc., a corporation existing under the laws of the State of Texas, doing business at 2609 Technology Drive, Plano, Texas 75074 (hereinafter referred to as "Assignee") desires to acquire the entire right, title, and interest in, to and under the above invention and application and any patents which may be granted on said invention or any non-provisional patent applications claiming priority therefrom, in the United States and in any and all foreign countries;

NOW, THEREFORE, for good and valuable consideration, the receipt and adequacy of which are hereby acknowledged, I do sell, assign, and transfer, unto Assignee, the full and exclusive right, title, and interest in and to (a) said invention and worldwide rights therein; (b) said application, including all divisions, continuations and substitutions thereof; and (c) all United States and foreign patents which shall issue on said invention, including all title of invention:

Lidar Measurement Device with Target Lock and Method for Use of Same
reissues, renewals and extensions thereof, for the United States, its territories and possessions and all foreign countries, including the right to file corresponding applications for Letters Patent or the legal equivalent thereof on said invention in any and all foreign countries, and the right to claim priority under any and all treaties and conventions to which the United States of America

is signatory including the Paris Convention for the Protection of Industrial Property and the Patent Cooperation Treaty (PCT) of the World Intellectual Property Organization (WIPO) for such corresponding applications, or any division, continuation, renewal or substitution thereof, and as to letters patent and any reissue, re-examination or extension thereof, the same to be held and enjoyed by said Assignee, its assigns and successors, as fully and entirely as the same would have been held and enjoyed by me, had this assignment not been made.

I hereby authorize and request the Patent Office of the United States and any and all foreign countries to issue any and all of said patents, when granted to Assignee as the Assignee of my entire right, title and interest in and to the same, for the sole use and enjoyment of Assignee, its successors, and assigns.

Further, I agree that I will communicate to Assignee, or its representatives, any facts known to me respecting said inventions, and testify in any legal proceedings, sign all lawful papers, execute all non-provisional patent applications, divisions, continuations, substitutions, renewals, and reissue applications, execute all necessary papers to cause any and all of said patents to be issued to Assignee, make all rightful oaths and generally do everything necessary or desirable to aid Assignee, its successors and assigns, to obtain and enforce proper protection for said inventions in the United States and in any and all foreign countries.

The undersigned further declares that all statements made herein of his own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements and the like so made are punishable by fine or imprisonment, or

both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

IN TESTIMONY WHEREOF, I have hereunto set my respective hand and affixed my respective seal on the date indicated below.

EXECUTED at Collin County, Texas, on the 25th day of October 2011.
