## ASSIGNMENT

WHEREAS, Michael Craig Krisztal of Los Angeles, California, Assignor, has invented a new, original, and ornamental design for PORTABLE LOUDSPEAKER, for which an application for United States Letter Patent was filed on or about the date of the Assignment; and

WHEREAS, Assignor believes herself to be the original, and first inventor of the invention disclosed and claimed in the application for Letter Patent; and

WHEREAS, The Ketchum Group, Inc., dba, Outdoor Technology, a California corporation, having a place of business at 8915 S. La Cienega Blvd., Unit B, Inglewood, California 90301, Assignee, desires to acquire by formal, recordable assignment the entire right, title and interest in and to the invention, the application, and any Letters Patent that might be granted for the invention in the United States and throughout the world;

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor hereby sells, assigns and transfers to Assignee the entire right, title and interest in and to the invention, the application, and any Letters Patent that might be granted for the invention in the United States and throughout the world, including the right to file foreign applications directly in the name of Assignee and to claim for any such foreign applications any priority rights to which such applications are entitled under international conventions, treaties or otherwise.

Further, Assignor agrees that, upon request and without further compensation, but at no expense to Assignor, she and her legal representatives and other assigns will perform all lawful acts, including the execution of papers and the giving of testimony, that might be necessary or desirable for issuing, sustaining, reissuing or enforcing Letter Patent in the United

Assignor represents and warrants that she has not granted and will not grant to others any rights inconsistent with the rights granted by this Assignment.

Assignor authorize and request the Commissioner of Patents and Trademarks for the United States and of all foreign countries to issue any Letters Patent granted for the invention, whether on the application or any subsequently filed division, continuation, continuation-in-part or reissue application, to Assignee, its successors and assigns, as the assignee of the entire interest of the invention.
