WHEREAS, Assignors believe themselves to be the original, first and joint inventors of the invention(s) disclosed in or claimed in the Application (the "Invention"); and

WHEREAS, Olympus Corporation, a corporation having its place of business at 2-3 Kuboyama-Cho, Hachioji-Shi, Tokyo, Japan (the "Assignee"), desires to acquire by formal, recordable assignment the entire right, title and interest in and to the Invention, the Application, and any letters patent that might be granted for the Invention in the United States and throughout the world ("Letters Patent").

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged:

1. Assignors hereby sell, assign and transfer to Assignee, the entire right, title and interest in and to the Invention, the Application, and any Letters Patent, including the right to file foreign applications directly in the name of Assignee and to claim for any such foreign applications any priority rights to which such applications are entitled under international conventions, treaties or otherwise.

2. Assignors agree that, upon request and without further compensation, but at no expense to Assignors, they and their legal representatives and assigns will perform all lawful acts, including the execution of papers and the giving of testimony, that might be necessary or desirable for obtaining, sustaining, reissuing or enforcing any Letters Patent, and for perfecting, recording or maintaining the title of Assignee, its successors and assigns, to the Invention, the Application, and any Letters Patent.

3. Each of the Assignors hereby irrevocably designates and appoints Assignee, its successors and assigns, and its duly authorized officers, employees and agents as its duly authorized officer and agent and attorney-in-fact, with full power of substitution, to act for and on such Assignor's behalf, to execute and file any papers or documents and to do all other lawfully permitted acts to further the prosecution and issuance of any Letters Patent and for all of the other purposes set forth herein with the same legal force and effect as if executed by Assignor.

4. Assignors represent and warrant that they have not granted and will not grant to others any rights inconsistent with the rights granted by this Intellectual Property Assignment.

5. Assignors authorize and request the Commissioner of Patents and Trademarks of the United States and the equivalent office of any foreign country to issue any Letters Patent granted for the Invention, whether on the Application or on any subsequently filed division,

continuation, continuation-in-part, reissue application, or foreign equivalent thereof, to Assignee, its successors and assigns, as the assignee of the entire interest in the Invention.

6. All questions concerning the construction, validity and interpretation of this Intellectual Property Agreement shall be governed by and construed in accordance with the domestic laws of the State of New York without giving effect to any choice of law or conflict of law provision (whether of the State of New York or any other jurisdiction) that would cause the application of the laws of any jurisdiction other than the State of New York. Any dispute or claim arising out of or relating to this Intellectual Property Assignment shall be brought or otherwise commenced only in state or federal court located in the County of New York, State of New York, and each of the parties hereto hereby consents to the jurisdiction of such courts (and of the appropriate appellate courts therefrom) in any such proceeding.
