B. The parties are the principal stockholders of Pong which is the successor corporation to Pong Research Corporation, LLC, a Delaware limited liability company. The parties have entered into a Stockholders Agreement and various other consulting, employment and other agreements in connection with the reincorporation of Pong (the "*Reorganization*").

C. In connection with the Reorganization, Assignor and Assignee wish to terminate the Patent License and provide for Assignor to assign to Pong on a worldwide basis (1) all right, title, and interest in, (2) all intellectual property rights, moral rights, contractual rights, and any other legal rights related to, and (3) all intellectual property rights owned by Assignor that are embodied in, the technology, patents and intellectual property rights identified on *Exhibit A* attached to this Agreement (altogether constituting the "*Assigned Intellectual Property*").

D. Assignor is willing to sell and assign the Assigned Intellectual Property to Assignee, subject to the terms and conditions set forth in this Agreement.

AGREEMENT

NOW THEREFORE, in consideration for the mutual covenants set forth below, the Parties hereby agree as follows:

2. Assignment. Assignor hereby irrevocably assigns, sells, transfers and conveys to Assignee all right, title and interest, on a worldwide basis, in and to the Assigned Intellectual Property. Assignor acknowledges that from and after the Effective Date of this Agreement, it will have no further rights in any Assigned Intellectual Property, nor any rights to use any such Assigned Intellectual Property in any matter or for any purpose.

3. Further Assurances. Assignor hereby acknowledges that Assignor retains no right to use the Assigned Intellectual Property and agrees not to challenge the validity of Assignee's ownership of the Assigned Intellectual Property or undertake any actions inconsistent with Assignee's ownership thereof. Upon reasonable request by Assignee, Assignor agrees promptly to execute documents and take other acts as Assignee may deem reasonably necessary to procure, maintain, perfect, evidence and enforce the full benefits, enjoyment, rights, title and interest, on a worldwide basis, of the Assigned Intellectual Property and all rights assigned under this Agreement, including executing patent assignments related to the Assigned Intellectual Property.

4. Delivery. Assignor further agrees to deliver to Assignee upon execution of this Agreement any and all tangible manifestations of the Assigned Intellectual Property, including, without limitation, all notes, records, files and tangible items of any sort in its possession or under its control relating to the Assigned Intellectual Property.

No modification of or amendment to this Agreement, nor any waiver of any rights under this Agreement, will be effective unless in writing and signed by authorized representatives of both Parties. Failure by either Party to exercise any of its rights under this Agreement will not constitute or be deemed a waiver or forfeiture of such rights.

DISPUTE RESOLUTION PROCEDURE

1. Defined Terms. All capitalized terms not defined herein have the meaning given to such terms in the Agreement to which this Dispute Resolution Procedure is attached as Exhibit B.
2. Dispute Resolution. Any and all disputes, claims or controversies arising out of, relating to, concerning or pertaining to the terms of the Agreement, or to the performance or failure of performance under the Agreement of any party thereto ("Dispute"), which Dispute the parties have been unable to resolve by informal methods after undertaking a good faith effort to do so, shall first be submitted to an informal dispute resolution under the procedure described in Paragraph 3, below; if the matter is not resolved through such procedures, it shall be referred for final and binding arbitration under the procedures described in Paragraph 4, below.
3. Informal Resolution. Any unresolved Disputes shall initially be referred to a professional mediator or neutral third party, who shall be jointly selected by the parties to the Dispute. The parties' respective designees shall meet, along with said mediator, and shall negotiate in a commercially reasonable manner for a period of fifteen (15) business days in an effort to resolve the Dispute. 4. Arbitration. Any party may initiate binding arbitration with respect to the Dispute by making a written demand for binding arbitration before an arbitrator that is a former judge or attorney with experience resolving major commercial disputes within the electric industry with JAMS, its successor, or any other mutually agreeable arbitrator (the "Arbitrator") at any time following the unsuccessful conclusion of the informal resolution provided for in Paragraph 3. The parties will cooperate with one another in promptly selecting the Arbitrator and in scheduling the arbitration to commence no later than ninety (90) calendar days from the date of the initial written demand for binding arbitration. If, notwithstanding their good faith efforts, the parties are unable to agree upon a mutually acceptable Arbitrator, the Arbitrator shall be appointed as provided for in the Delaware Uniform Arbitration Act. Except as provided for herein, the arbitration shall be conducted by the Arbitrator in accordance with the rules and procedures for arbitration of complex business disputes for the organization with which the Arbitrator is associated; absent the existence of such rules and procedures, the arbitration shall be conducted in accordance with the Delaware Uniform Arbitration Act, 10 Del. The Arbitrator shall, in any award, allocate all of the costs of the binding arbitration (other than each party's individual attorneys' fees and costs related to the party's participation in the arbitration, which fees and costs shall be borne by such party), including the fees of the Arbitrator, against the party who did not prevail. Until such award is made, however, the parties shall share equally in paying the costs of the arbitration
