Applicant: **Gregory S. Walthers** of Chicago, IL;

is the owner of the invention disclosed in a United States non-provisional patent application claiming priority to U.S. Patent Application No. 61/497,491, prepared by Richards Patent Law P.C., and referenced as attorney docket number 1088-002 ("Invention").

In consideration of the sum of one dollar, the receipt of which is hereby acknowledged, and for other good and valuable consideration, Applicant sells, assigns and transfers unto Assignee the full and exclusive right to the Invention in the United States and the entire right, title and interest in and to any and all patents which may be granted therefore in the United States and all rights and privileges under the patents that may be granted therefor, including the right to claim the benefit of an earlier filing date for the same invention in a foreign country. Applicant hereby authorizes and requests the Director of the U.S. Patent and Trademark Office to issue said United States patent(s) to Assignee fully and entirely.

For the same consideration, Applicant hereby agrees to promptly communicate to the Assignee, or its assigns, full and complete information concerning the Invention and agrees to cooperate at any time upon request of said Assignee, or its assigns, at Applicant's expense, in the procurement of patent protection to cover the Invention, including the execution of new, divisional, continuing, reexamination and reissue applications.
