ASSIGNMENT

FOR VALUE RECEIVED, I, Peter Allen, hereby sell, assign and transfer to Think Products, Inc., a New York corporation, with offices at 120 Ricefield Lane Hauppauge, NY 11788, as Assignee, and its successors, assigns and legal representatives, my entire right, title and interest in and to certain invention, in my newly executed United States patent application of today's date of June 18, 2012 relating to and entitled as follows:

**LOCKING ASSEMBLY FOR ELECTRONIC TABLET AND OTHER DEVICES**  
and as described and/or claimed in any and all applications for Letters Patent based thereon, including any divisionals, continuations, continuation-in-parts, reissues, re-examinations and extensions thereof, as well as all foreign counterparts thereof, together with all Letters Patent issuing on any of the aforesaid applications for Letters Patent, the same to be held and enjoyed by assignee, its successors, assigns or other legal representatives, to the full ends of the terms of all said Letters Patents therefore which may be granted and all rights and privileges under any and all Letters Patent that may be granted therefore.

I hereby authorize Assignee to make applications for and to receive Letters Patent for said invention in any foreign countries in its name or in my own name at its election.

I request that any and all patents for said invention be issued to said Assignee, its successors, assigns and legal representatives, or to such nominees as it may designate.

I agree that, when requested, I will, without charge to Assignee but at its expense, sign all papers, take all rightful oaths, and do all acts which may be necessary, desirable or convenient for securing and maintaining patents for the invention in any and all countries and for vesting title thereto in the Assignee, its successors, assigns and legal representatives or nominees.

I authorize and empower the Assignee, its successors, assigns and legal representatives or nominees, to invoke and claim for any applications for patent or other form of protection for the invention filed by it, the benefit of the right of priority provided by the International Convention of the Protection of Industrial Property, as amended, or

by any convention which may henceforth be substituted for it, and to invoke and claim such right of priority without further written authorization from me.

I will, at any time, upon the request and at the expense of Assignee, execute any continuations, divisionals, reissues, or any other additional applications for Letters Patent for said invention or any part or parts thereof, all of which applications and any Letters Patent issuing thereon are hereby assigned to Assignee, and will make all rightful oaths, and do all lawful acts requisite for procuring the same therein, without further compensation, but at the expense of Assignee, its successors, assigns or other legal representatives.

I hereby consent that copies of this Assignment shall be deemed a full legal and formal equivalent of any assignment, consent to file or like documents which may be required in any country for any purpose, and more particularly, in proof of the right of the Assignee or nominee to claim the aforesaid benefit of the right of priority provided by the International Convention for the Protection of Industrial Property, as amended, or by any convention which may henceforth be substituted for it.

I covenant with the Assignee, its successors, assigns and legal representatives, that the rights and property herein conveyed are free and clear of any encumbrance, and that I have full right to convey the same as herein expressed.
