PATENT ASSIGNMENT

This Patent Assignment ("**Assignment**") is made and entered into as of June ____, 2012 by and between GE Medical Systems Information Technologies, Inc., a Wisconsin corporation ("**Assignee**") and General Electric Company, a New York corporation ("**Assignor**").

WHEREAS, the patents and industrial design set forth on Schedule A hereto (collectively, the "**Patents**") are owned by GENCSUS, Inc., a Delaware corporation, GENCS, Inc., an unlimited liability corporation under the laws of Nova Scotia, and GE Infrastructure Security (collectively, the "**Subsidiaries**"), each a wholly-owned subsidiary of Assignor;

WHEREAS, Assignee desires to acquire all right, title, and interest in and to the Patents; and

WHEREAS, Assignor has the right and power to assign all right, title, and interest in and to the Patents to Assignee on behalf of the Subsidiaries.

NOW, THEREFORE, in consideration of mutual covenants and agreements set forth below, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto agree as follows:

1. **ASSIGNMENT.** Assignor, on behalf of the Subsidiaries, hereby irrevocably and unconditionally grants, conveys, transfers, and assigns to Assignee all right, title and interest in and to the Patents, and the right to claim priority to the Patents, the same to be held by Assignee for Assignee's own use and enjoyment, and for the use and enjoyment of Assignee's successors, assigns and other legal representatives, as fully and entirely as the same would have been held and enjoyed by the Subsidiaries if this Assignment had not been made; together with all rights to income, royalties, and license fees deriving from the Patents, all claims for damages by reason of past, present and future infringements of the Patents, and the right to sue for and collect such damages, as permitted under the applicable laws for any jurisdiction or country in which such claims may be asserted for the use and benefit of Assignee and its successors, assigns and other legal representatives.

2. **ISSUANCE OF FUTURE PATENTS.** Assignor hereby authorizes and requests the Commissioner of Patents and Trademarks of the United States, and any officer of any country or countries foreign to the United States, whose duty it is to issue patents or other evidence or forms of intellectual property protection or applications as aforesaid, to issue the Patents to Assignee and its successors, assigns and other legal representatives in accordance with the terms of this instrument.

3. **ASSISTANCE.** Assignor agrees to perform, without charge to Assignee (except as otherwise permitted herein), all acts deemed necessary or desirable by Assignee to permit and assist Assignee in perfecting and enforcing the full benefits, enjoyment, rights, title and interest throughout the world in the Patents, and the intellectual property rights therein assigned to Assignee hereunder. Such acts may include execution of documents, including any and all powers of attorney, applications, assignments, declarations, affidavits, and any other papers in connection therewith reasonably necessary to perfect such benefits, enjoyment, rights, title and interest in Assignee, assistance and cooperation in the registration and enforcement of applicable intellectual property

rights or other legal proceedings, including providing documents and materials in the possession or control of Assignors, testifying in any legal proceedings, signing lawful papers and making all lawful oaths at Assignee's expense, and generally doing everything that is reasonably necessary to aid Assignee in obtaining and enforcing proper protection for applicable intellectual property rights.

4.2 Entire Agreement. This Assignment, including the schedule attached hereto and other agreements and documents referred to herein, contains the entire agreement and understanding of the parties hereto with respect to its subject matter and supersedes all prior and contemporaneous agreements and understandings, oral and written, among the parties with respect to such subject matter.
