**PATENT ASSIGNMENT**

This Assignment ("**Assignment**") is made as of 7/12, 2012 (the "**Effective Date**"), by Innovation First International, Inc. a Texas company ("**Assignor**") to Innovation First, Inc., a Texas limited liability company having a principal place of business at 1519 Interstate 30 West Greenville, Texas 75402 ("**Assignee**").

Assignor owns the Patents listed in Exhibit A ("**PATENTS**") and now desires to transfer to Assignee all its right, title and interest in the Patents.

For good and valuable consideration, receipt and sufficiency of which Assignor specifically acknowledges:

Assignor grants, conveys, transfers, alienates and assigns to Assignee, for and throughout the world, Assignor's right, title and interest (legal, equitable, use and otherwise) in and to any and all: (i) the right to file and register the same in Assignee's name with any governmental authority; (ii) rights to record the transfers made under this Assignment in the United States Patent and Trademark Office and in any other public offices of any governmental authorities throughout the world; (iii) rights to sue for, collect and retain damages predicated on present or future infringements of the preceding, as well as all other claims and rights to damages associated with the preceding, whether predicated on past, present or future actions or omissions, and whether or not currently known or unknown; and (iv) all goodwill and business associated with the Patents.

Assignor's assignment of the Patents to Assignee under this Assignment constitutes a complete, absolute, and exclusive transfer of all rights (legal, equitable, use and otherwise) in the Patents, whether currently existing or arising or recognized in the future. Assignor does not reserve or retain any right, title, or interest in the Patents. Assignor acknowledges and agrees that the Patents constitute the sole and exclusive property of Assignee.

Assignor represents and warrants that it has full power and authority: (i) to enter into this Assignment; (ii) to grant to Assignee all rights in and to the Patents; and (iii) to perform all of its obligations under this Assignment.

This Assignment shall be binding upon and inure to the benefit of Assignee, its successors and assigns of Assignor and its permitted successors. This Assignment supersedes any prior understandings, written agreements, or oral arrangements among the parties which concerns the subject matter of this Assignment. The terms of this Assignment shall govern if there is any conflict between this Assignment and any other written instrument which concerns or affects the subject matter of this Assignment. This Assignment constitutes the complete understanding among the parties. No alteration or modification of any of this Assignment's provisions shall be valid unless made in a written instrument which both parties sign.
